Garden Cities And A Life Full Of Love: My 144 Beautiful Original Christian Poems

JOSELITO M. LAGAZO

This book, “Garden Cities And A Life Full Of Love”, describes the author’s loving relationship with the Lord Jesus Christ, expressed in 144 beautiful poems. The life of the author has not been very easy, but because of the continuing guidance of the Lord Jesus Christ, the author’s eyes were opened and he came to see the important role that Jesus Christ plays in his life. He has been saved by the Lord in so many times, including the three major

illnesses the author had successfully overcome.

Because of the tremendous love the Lord has for the author, he was forgiven of all his sins and he learned to call Him his Bridegroom and himself as the Bride of Christ. This book teaches us that no matter how far we are from the Lord or how hard our lives can become, He has all the power to bring us back to Him and forgive us all our sins. The author also learned to depend on God as his Sovereign Lord, so that everything written on this book is inspired by God and not based on the author’s personal words and knowledge.

Therefore, the author, instead of pursuing his further interest in math, science and computer, happily offers his everyday life and activities to the Lord Jesus Christ. But this doesn’t mean that he has totally abandoned these three fields. It’s just that he wants to put God first in his life, to seek Him first and His Kingdom and His righteousness then all these things will be added. He begins to see these fields as a way to give glory and honor to the Lord and to search the infinite knowledge and wisdom that is in Him. So, happy reading to all and God Bless!!

TABLE OF CONTENTS 1

1. Type of Christ, Bride of Christ, page 19

2. Math, Science and Computer, page 22

3. How I Study Math-Sci-Comp, page 25

4. The Poor by the Wayside, page 28

5. I Love You (Lord Jesus Christ), page 30

6. The Cross, page 32

7. More than Words, page 35

8. Love Songs: A Type of Christ (Part 1), page 38

9. Love Songs: A Type of Christ (Part 2), page 41

10. Love Songs: A Type of Christ (Part 3), page 44

TABLE OF CONTENTS 2

11. Christian Movies: A Type of Christ, page 47

12. Christian Movies: Heaven's War, page 50

142. Heavenly Art Before Photo Editing, page 446

143. Heavenly Production Before Video Editing, page 449

144. Graces and Blessings Before Accounting, page 452

Type of Christ, Bride of Christ

I love You very much, Lord Jesus Christ
In the Old Testament, You are a Type
In the New Testament, I am Your Bride

In the past,
You helped me when I was in need
When I was in sin and cannot proceed

You guided me
To understand Your Word
Which is a double-edged sword

You taught me
How to be a good Christian
How to be a loving neighbour and son

You always see to it
That I properly fulfill my role
To do my mission and to finish my goal

Everything I know
Is a Type of Christ
If He's not explicitly mentioned

(table of contents)

Type of Christ, Bride of Christ

I’ve come from nothing
To full understanding
Where He’s become my Everything

You strengthen me
To love my enemies
And bring them back to You

You are my
Absolute Judge and Friend
The Only Begotten Son whom God sent

You give me the power
To maintain a sound mind
And prepare for Your return’s hour

I am truly Your bride
Because I always follow Your Word
When problems or not arise

(table of contents)

Type of Christ, Bride of Christ

I love You very much, Lord Jesus Christ
Only You are my personal God and Saviour
And I am Your Bride

(table of contents)

Math, Science and Computer

Math, science and computer
They all belong to You
O Lord Jesus Christ!

You have made them all
Because of human intelligence
Although humans made them

Math, science and computer
Have helped humans advance
Which is help from the Lord

There are signs
Which are Types of Christ
In math, science and computer

Math's addition
Involves the plus sign
Which symbolizes the Cross of Jesus Christ

(table of contents)

Math, Science and Computer

Numbers or variables added
Are members added to the Church
Which is the Bride of Christ

The number eight
Is actually infinity when rotated
Which is the very nature of God

The clock and circle
Have up to twelve hours and 360 degrees
Which are related to God

The field of science
Is vast and broad
That involves the whole universe and the planets

This only proves
That there is a Creator
Who made the heavens and the earth

(table of contents)

Math, Science and Computer

In computer there are only two
The binary numbers zero and one
For there are only two, for God or against Him

There are only two
Heaven or hell, eternal life or damnation
There can’t be any in between

(table of contents)

How I Study Math-Sci-Comp

Arithmetic is a Type of Christ
It allows us to count things
And do operations on them

Addition allows us to add
While multiplication to multiply
Blessings and relationships in our lives

Subtraction allows us to remove
And division to separate
Negative thoughts, speech and actions

Algebra is a Type of Christ
It allows us to solve problems
Using variables and substitution

Geometry is a Type of Christ
It allows us to study shapes
Like Jesus Christ in Human form

Trigonometry is a Type of Christ
It specializes in the number three
As in 360-degree angles and triangles

(table of contents)

How I Study Math-Sci-Comp

Calculus is a Type of Christ
It allows us to study change in our lives
Like repentance, justification,
sanctification and finally glorification

Biology is a Type of Christ
It allows us to see the image of God
In us human beings, and complexity in
other life forms

Chemistry is a Type of Christ
It allows us to experience His suffering
and love on the cross
Just like chemistry is a difficult subject

Physics is a Type of Christ
It allows us to see the immutability
In the motion and action of the whole
universe from big to small

(table of contents)

How I Study Math-Sci-Comp

Computer is a Type of Christ
It lessens the burden in our everyday lives
In the form of simple zeroes and ones

All of these are Types of Christ
They allow us to appreciate Christ more
And love Him who died on the cross

(table of contents)

The Poor by the Wayside

I saw a poor man
Begging for alms
From far away

No one was giving him any
Just walking past him
Like he’s invisible

Finally, it was my turn
To walk past him also
Or give him to burn

I slid my right hand
Inside my bag
To feel some coins

I was able to get
Some 40 pesos
In total

And so a miracle happened
I dropped the coins
Into the man’s empty cup

(table of contents)

The Poor by the Wayside

The man then looked at me
Then smiled
And said, “Thank you.”

I felt a rush of blood
Of happiness inside
As I smiled back at him

After that scene
I looked up to Heaven
And saw God smiling at me

I prayed to God
To give me more chances
To make some poor friends

That poor man
Is sure to get to Heaven
Like old Lazarus in the Bible

That incident
Will also get me to Heaven
As I obeyed the Lord’s commandment

(table of contents)

I Love You (Lord Jesus Christ)

I love You
With all of my heart, my mind
My soul and my strength

To obey Your commandments
Is the utmost delight of my soul
As found in the Bible

You are my God
And I am Your Bride
To love You more is my greatest desire

The seed grows
Into plant, into tree
As does my love for You every day

You water my love
For it to grow
Until it reaches the sky above

When I am sad
You water my love with tears
To show me that You're near

(table of contents)

I Love You (Lord Jesus Christ)

You caress me with Your touch
And hug me so tight
That I need You so much

Your love I cannot replace
With the love of the world
In Your own time and place

Only You
Will be my Love
Forevermore

I have forsaken
My family, relatives and friends
Just to be with You

And to love You more each day
By obeying Your commandments
And following Your Ways

So Lord be kind to me
Take care of my heart
Then finally I will be free

(table of contents)

The Cross

The Holy Cross of our Lord Jesus Christ
Consists of two parts:
The vertical, and the horizontal

The vertical part
Is higher than the horizontal part
Because of its greater importance

The vertical part is the greatest commandment
To love God the Father
With all our heart, mind, soul and strength

The horizontal part is the second commandment
To love our neighbours
As we love ourselves

(table of contents)

The Cross

The intersection, or center, of these two parts
Is where we find the Lord Jesus Christ
For He is our Way to the Father and to our neighbours

Now the lowest point on the cross
On the vertical part
Is us humans

The two opposite sides
On the horizontal part
Are us and our neighbours

The blood of our Lord Jesus Christ
Is what wipes away our sins
And our neighbours' sins

Once we apply the blood in our lives
We then can move from the lowest point
To the center, which is Jesus Christ

(table of contents)

The Cross

Then from Jesus Christ
We move to the highest part of the vertical
Which is God the Father

This is where we are reconciled
With God the Father
And propitiated, our sins forgiven

Then the Lord Jesus Christ
Unites us with our neighbours
From left to right of the horizontal

(table of contents)

More than Words

No amount of words can suffice
To express my love for You
As my personal God and Saviour

I'm not full of words, but of action
In obeying the Lord
And helping my neighbour

I convert thoughts to words
And words to actions
To be successful spiritually as Your son

I am ever grateful to You
As my Helper and Anchor
That guides me through deep waters

God used words
In order to create the heavens and the earth
The whole universe with all things

(table of contents)

More than Words

But God is more than just words
For He is Love
By sending His Son to die on the cross

Words can either help or hurt
So choose the words you utter
Because they have this kind of power

The Lord has spoken
And it will happen
His words we can depend

The words "I love You"
Have so much meaning
Especially when spoken to the Lord

The words of the Lord
Are faithful and true
To help us with what we're going through

The words of the Lord
Are full of blessings
To those who love Him

(table of contents)

More than Words

So love the Lord not only in words
But set your heart right with Him
And He will bless you with all things

(table of contents)

Love Songs: A Type of Christ (Part 1)

After all that has happened in my life
I'm now out of love's territory
Just waiting for whatever may come

But having You near me, Lord
Saying, "Here I am, your life's not over yet"
And a smile in Your face makes me whole

You know very well the shape of my heart
In every day that I love You
Where everything I own I surrender to You

Sometimes it's hard for me to say "I'm sorry"
But because Your love for me is ocean-deep
You forgive me time and again on this day

(table of contents)

Love Songs: A Type of Christ (Part 1)

The old songs have become new
I don’t know what to say, Your love is so true
The night has become wonderful as the day

Your heart Lord connects to mine
As I explore more about the Love of my life
Together we have come much closer

Before, I don’t know if I’ll ever fall in love again
But whenever You look at me
I know You’re the One I’ve been waiting for

The past has influenced me so much
Through the years I have loved and hurt
But maybe this time, I won’t fail

(table of contents)

Love Songs: A Type of Christ (Part 1)

Because of You Lord, I have learned to love again
I never thought I would never suffer more pain
You are always here waiting for me

You give me all the love I deserve
So take me now in Your loving arms
For that's what true love is all about

Your will be done in my life
Even now I testify
You are my endless love

If there is a word I can't say, it's "goodbye"
It's the song that doesn't make sense at all
For I will always love You

(table of contents)

Love Songs: A Type of Christ (Part 2)

I will have my one last cry
Before I finally meet the one I can count on
Who is the King of my heart

Forever I'm so in love with You
For You have healed my broken heart
And I write this song full of love

I capture the moment You and I are together
Two less lonely beings on heaven and earth
Against all odds, our hearts become one

Angels shed tears of joy
For You have become my dream's fulfillment
My emotions are all safe with You

(table of contents)

Love Songs: A Type of Christ (Part 2)

I want to know You more every day
Because You are always there when I need You the most
Through sunshine or rainfall

I have visions of love that is You
Without You I can do nothing
I always thank God I found You

You welcome me with open arms
You have been my friend since the beginning
Truly You're my everything

You always make me feel brand new
Your touch makes my problems go away
My search for You has become very fruitful

My heartaches ended when I met You
For I believe in You Lord
And truly You're more than a Messiah to me

(table of contents)

Love Songs: A Type of Christ (Part 2)

I will be forever in Your arms
With You, I will always love again
And my heart will always be for You

I will always be Your Bride
And we will always greet each other a new hello
For You will always be my endless love

I will never say “goodbye” anymore
Nor “Someday I will find a true lover”
For if I should love again, it would be You

(table of contents)

Love Songs: A Type of Christ (Part 3)

After tonight comes a new morning full of hope
You are my source of bliss
Which no one can take away from me

With You I have all things new
Your love for me begins
I can fly high above the clouds

I can do all things because of You
In Your eyes I'm perfect because You are my Strength
You will never let me go

Whenever I go astray, Your love will lead me back to You
You are the Hero of my heart
For I believe in You always

With other human beings, love takes time
But with You, there is no such thing as too far
For You are my Saving Grace

(table of contents)

Love Songs: A Type of Christ (Part 3)

With You, I will always see a rainbow
You always say that You love me
For You are my One and Only

All at once, You give me everything my heart desires
I always look to You for support and guidance
Never does one moment in time pass by unnoticed

Before, I was always on my own
Then prayers started to flood my heart
Which You fulfilled when I had my chance to be with You

I will never be alone and lonely anymore
Because I will never be separated from You
This is an important chance for me

(table of contents)

Love Songs: A Type of Christ (Part 3)

Somewhere, sometime
I've been singing the old songs
Which You have truly made new

The greatest love of all You have given me
I will always love You
A great miracle it is to run to You

Therefore, I will be saving all my love
So that when You return from up above
I will be forever Yours

(table of contents)

Christian Movies: A Type of Christ

"Heaven's War" is a type of Christ
Directed by Danny Carrales
Starring Jason Gerhardt, Donny Boaz and Kelly Patton

"The Encounter" is a type of Christ
Directed by David A. R. White
Starring Bruce Marchiano, Steve Borden and Jaci Velasquez

"A Man Called Jon" is a type of Christ
Directed by M. Legend Brown
Starring Christian Heep, Sharice Henry Lamb and Vernee Watson

"The Secrets of Jonathan Sperry" is a type of Christ
Directed by Rich Christiano
Starring Gavin MacLeod, Jansen Panettiere and Robert Guillaume

(table of contents)

Christian Movies: A Type of Christ

"MindReader" is a type of Christ
Directed by Rich Christiano
Starring Hamish Briggs, Connor Keene and Ross Turner

"Break the Cycle" is a type of Christ
Directed by Jason Campbell and Marty Jean-Louis
Starring Anna Stadler, Julie McCullough and Jianna Platon

"The Moment After" is a type of Christ
Directed by Wes Llewellyn
Starring Julie Link, Greg Davis and Mike Wilson

"Revelation Road 1: The Beginning of the End" is a type of Christ
Directed by Gabriel Sabloff
Starring David A. R. White, Brian Bosworth and Andrea Logan

(table of contents)

Christian Movies: A Type of Christ

"Revelation Road 2: The Sea of Glass and Fire" is a type of Christ
Directed by Gabriel Sabloff
Starring David A. R. White, Brian Bosworth and Andrea Logan

"Revelation Road 3: The Black Rider" is a type of Christ
Directed by Gabriel Sabloff
Starring David A. R. White, James Denton and Hilty Bowen

"Forgiven" is a type of Christ
Directed by Kevan Otto
Starring Kevin Sorbo, Jenn Gotzon and Casey Fuller

"The Mark" is a type of Christ
Directed by James Chankin
Starring Craig Sheffer, Sonia Couling and Eric Roberts

(table of contents)

Christian Movies: Heaven's War

I'd like to fight, fight, fight
For my faith, faith, faith
And be saved, saved, saved

The enemies are all around us
The forces of darkness
Are spread and scattered

The Angel of the Lord
Ran for my cause
And defended my soul

It was a difficult battle
The Forces of Good
Versus the forces of evil

The Lord Jesus Christ
Has sent more angels
To hold the barrier

Victory is surely ours
Because of the strength
Of our Lord Jesus Christ

(table of contents)

Christian Movies: Heaven's War

Although I kept on fighting
My sins were holding me back
I was not clean before the Lord

That's why I asked for His forgiveness
And the battle suddenly
Turned in our favor

The shield of the Lord
Protected me from harm
Caused by the attacking enemy

My sins are now cleansed
And I no longer see
A black dripping liquid in my heart

The Angel of the Lord
Smiled at me
For I am now a child of God

I'm now ready to go back
To my body left on Earth
And do my mission since birth

(table of contents)

Christian Movies: The Encounter

I have encountered
The Lord Jesus Christ
So many times in my life

He showed me the poor's plight
When I was a child
And I became teary-eyed

I wanted to help the poor
And promised to myself
To give to them each day

Until today, I am softhearted
Concerning the poor
Because I see the Lord in them

It is in the Bible
And I couldn't ask for more
I want them to be comfortable

I showed them pity
When it matters most
The love the Lord would give

(table of contents)

Christian Movies: The Encounter

Helping the poor
Is my lifetime mission
Just like with the prophet I support

I have a friend
Who is a modern-day prophet
And he lives in Kenya

I always read his blogs
And learn a lot from him
About our Lord Jesus Christ

He loves the Lord so much
And embraced His suffering
To bring His Gospel to all

Together, the poor and the prophet
I learned to love more each day
Because this is what the Lord says

So love and be loved back
The most important lessons in life
Are what the Lord would require

(table of contents)

Christian Movies: A Man Called Jon

Jon is the man to turn to
When you want your worship
To be happy and free

He bursts into bliss
That people don't understand
While the service is ongoing

His family understands
Him though
And loves and respects him

Jon is an example
Of a pastor
Who rejoices in the Lord

He expresses himself
His inner thoughts and feelings
Through running and dancing

A perfect worshipper
For me to imitate
Because I love the Lord

(table of contents)

Christian Movies: A Man Called Jon

He was not understood
By leaders of his church
So that he was transferred to another

But soon enough
He found the perfect church
Who loves and welcomes him

This is true happiness
To be accepted
For what and who you are

I experienced this
With the Lord as well
When people around don’t understand

I can relate to Jon
When sometimes I seek acceptance
Instead of rejection

The Lord is open to all
He loves us so much
That He receives us for who we are

(table of contents)

Christian Movies: The Secrets of Jonathan Sperry

Mr. Sperry is my best friend
He knows a lot about Jesus Christ
That he wants to share with me

He is a good Christian
He loves people, especially his enemies
And those who have hurt him

He likes to share the Bible
With you and me
His friends keep growing larger

He has a way
Of dealing with bullies
He preaches Jesus Christ to them

He has a knack for explaining the Gospel
By making us solve a puzzle
Then presenting the lessons involved

(table of contents)

Even the bully he loves so much
He is not hard on them
But deals with a spiritual touch

His neighbours praise his kindheartedness
The way he treats them
With love and respect

He forgave his neighbour
Who had killed his wife
In a car accident

He has many friends
Who continued their Bible study
Even after his death

He will surely go to Heaven
Because he has given sinners a chance
To know the Lord Jesus Christ in their hearts

(table of contents)

I also want to know Jesus more
And others who I know
Because life just doesn't make any sense without Him

Truly, the Bible is a gift from God
Just like the Lord Jesus Christ
Who gives salvation to us

(table of contents)

Christian Movies: MindReader

The Lord Jesus Christ
Always amazes me
With His power and might

He can read our minds
And save us from danger
To which our lives are heading

He knows our thoughts
Feelings and actions
Even before we can realize them

The power of the Lord encompasses all
Many people believe in Him
By the miracles He performs

But not all think likewise
Others have become His enemy
Because they couldn’t figure Him out

(table of contents)

Christian Movies: MindReader

If we believe in the Lord
Then he will bless us more
Especially with a loving relationship with Him

Who wouldn't want this thing?
The question to ask is,
Why would anyone reject the love of Jesus?

For if you only love His miracles
But not the Lord
Then what good will that do?

I have learned to love the Lord
Not only His miracles
But because He has forgiven my sins

I have sinned a lot before
So many are my shortcomings
As a human being

(table of contents)

Christian Movies: MindReader

But that is no excuse
For to love the Lord with my whole heart
Is my life’s utmost meaning

And to be loved by Him
And cleansed of all sins
Is His ultimate blessing

(table of contents)

Christian Movies: Break the Cycle

I got teary-eyed
Watching this movie
My emotions were just overflowing

The love of a father
Is much more precious
Than the crime he committed

His sons and daughters
Must realize this
Christ's forgiveness is working

Just as our Heavenly Father
Loves us so much
That He sent His Son to die on the cross

The love of our Father
Cleanses all our sins
When we put our faith in the Lord Jesus Christ

(table of contents)

Christian Movies: Break the Cycle

The bond that connects
The Father and the Son and the Spirit
Is strong enough for our redemption

All we have to do
Is ask the Lord
That we want to go back to Him

Love is what connects us all
But when broken
We cry out hurting

Forgiveness on both sides
Is what will heal
The extremely painful wound

Once the bond is restored
Then we can start
A new life with our loved ones

The joy and happiness
This creates
Is beyond measure and comprehension

(table of contents)

So fathers, love your sons and daughters
And sons and daughters, love your fathers
For this is right in the eyes of the Lord

(table of contents)

Christian Movies: The Moment After

The Rapture will happen
Sooner or later
So we must be ready

We don’t know
The day or the hour
When this will happen

We must always be ready
By reading His Word daily
And keeping our faith in Him

Even science
And renowned scientists
Won’t be able to explain it

They may have theories
But more questions will abound
And sufficient answer will be far away

I have been talking
To the Lord lately
If I can make it in the Rapture

(table of contents)

Christian Movies: The Moment After

He said, “My beloved child,
If the Rapture happens today,
You will be with me in Heaven forever”

This happened so many times
He kept reassuring me
That I’m a faithful Christian

I’ve always followed Him
Since I’ve become a true born again
According to John chapter three

According to His Word
He will not leave nor forsake us
Those who are His true Bride

He will take us
And never leave us to suffer
In the Great Tribulation

So it’s always important
To trust in Him
As our personal God and Saviour

(table of contents)

Christian Movies: Revelation Road 1: The Beginning of the End

Everybody loves a hero
Especially one who plays a great role
In an action movie

He fights, he punches
He saves the weak, the feeble
With his mighty right hand

David A. R. White
Is the hero in this movie
And he just simply knocks out everybody

He witnessed the Rapture
But didn't know it
Because he hasn't accepted Christ yet

He saved a certain family
From the hands of their enemy
Who treated them brutally

(table of contents)

Christian Movies: Revelation Road 1: The Beginning of the End

This family of three
Has accepted Christ as their Saviour
Except their granddaughter

That was why
The grandparents were taken
When the Rapture happened

As for me, my hero
Will always be the Lord Jesus Christ
Who died on the cross for my sins

Having risen, He showed me
That I can have eternal life
If only I have faith in Him

I don’t have to fight my enemies
But instead to love them
And teach them about the Lord

(table of contents)

Christian Movies: Revelation Road 1: The Beginning of the End

Then will we celebrate
As Church and Bride of Christ
When we come to the Lord in Heaven

So the Lord will always be my Hero
He will bring me to His beautiful Kingdom
When the right time comes

(table of contents)

Christian Movies: Revelation Road 2: The Sea of Glass and Fire

The story continues
With our hero Josh (David A. R. White)
Finally taking the entire biker gang

But before this, the Rapture happened
The good and faithful Christians
Were taken into Heaven

In the twinkling of an eye
They were taken, able to fly
To be with the Lord forever

Those that were left behind
Were either non-believers in the Lord
Or were living in sin

Josh depends on his wife Rachel
Who treats her as his saviour
Whose love saved him from his dark past

(table of contents)

Christian Movies: Revelation Road 2: The Sea of Glass and Fire

The biker gang leader
Was not bad before but became so
Because of his anger at the world and God

To be raptured
Is the most beautiful thing
That can happen to a Christian

All his life he denied the world
Carried his cross
And followed the Lord

What can be more beautiful than that?
We struggle in our faith just like Josh
Because we have not known the Lord before

But because Josh chose Jesus
His faith in Him grew
And he came to love Him

(table of contents)

Christian Movies: Revelation Road 2: The Sea of Glass and Fire

Before the Rapture happens
There is still time
To set straight our lives

We can still grow our faith
In the Lord Jesus Christ
So that in the Rapture we deserve to rise

(table of contents)

Christian Movies: Revelation Road 3: The Black Rider

After the Rapture
The world became more chaotic
Spiralling into great confusion

People formed groups
And assigned their leader
Even made their rules and laws

Having embraced his faith in the Lord
Josh is now a man on a mission
Saving lives that are in danger

He found a girl with a wound
Brought him inside his car
And went on to the nearest medical

Like Josh, I'm also a man on a mission
Loving the Lord Jesus Christ
By obeying all of His commandments

(table of contents)

Christian Movies: Revelation Road 3: The Black Rider

Every day I want to grow
My faith more
So that I'll make it in the Rapture

The Rapture will take
Obedient Christians to Heaven
Where they will be happy for all eternity

The Kingdom of God
Is a very beautiful place
This is because I believe in His Word

What the Lord has been doing
In my life
Is to prepare me for His return

He always wants me to get closer to Him
Through His Word
In the Holy Scriptures

(table of contents)

Christian Movies: Revelation Road 3: The Black Rider

He wants me to repent
Of all my sins
So that I will be ready for His return

This is just a beautiful thing
To have great faith in the Lord
Is only the beginning

(table of contents)

Christian Movies: Forgiven

Most of the time, it’s hard to forgive
Someone who has wronged you
Or has taken away your loved one

A Christian family
Was taken hostage
Inside a church

James, the hostage taker,
Was a man running from the police
After he accidentally shot his girlfriend

He came inside the church
And took hostage
Of the pastor and his two daughters

Because of the stress
Of the situation
The father had a heart attack

He was then allowed
To go to the hospital
Accompanied by one of his daughters

(table of contents)

Christian Movies: Forgiven

In the end, the father died
But not James' girlfriend
After Elizabeth made the calls

Elizabeth also had forgiven James
Who was about to take his life
Amidst the police

This movie illustrates
That it is hard to forgive
A stranger who has wronged you

But because of Elizabeth's
Love for Jesus Christ
And for His commandments

She was able to forgive him
And convert him
And change him

For in the end
James was saved
And was seen attending her church

(table of contents)

Christian Movies: The Mark

If you are left behind
After the Rapture happened
Please don’t take the mark of the beast

For those who are faithful
To the Lord until the end
Will make it in the Rapture

But the unbelievers
And those living in sin
Will be left behind

The mark of the beast
Or “biological encoding and satellite tracking”
Will be given to all left behind

Only the Jews and Christians
Who know about the Lord
Will not take the mark

(table of contents)

Christian Movies: The Mark

How terrible will that day become!
For if you take the mark
You will suffer God's Wrath

But if you choose otherwise
Not taking the mark
The antichrist will be after your life

So put your faith and trust
In the Lord Jesus Christ now and today
So that you will not be in the Great Tribulation

Always pray to God
Read your Bibles
And obey His commandments

For the Great Tribulation
Will be unlike any other
You will suffer hell forever

(table of contents)

Christian Movies: The Mark

Always be ready to fight
The spiritual warfare
Against God’s enemies

So that when you succeed
You will make it to Heaven
Enjoying God’s bountiful rewards and blessings!

(table of contents)

The Second (and Eternal Time) I Loved Again

The first love of my life
Was a human being
Of the opposite gender

I looked at her
But she didn't notice
Then my heart was filled with joy

This happened when we were together
I thought we became more than friends
But she already has someone else

I was so brokenhearted
For day in and day out
We were together

I tried to hide my tears
And my heart's desire
For her to be my one and only

(table of contents)

The Second (and Eternal Time) I Loved Again

Then she left
And I was all alone
I didn't know how to come home

Then the Lord showed me
That I deserve more tenderness and love
That can only come from up above

And so I learned to love
The Lord Jesus Christ
Each and every day

He showed me love
Which no human being
Could ever give

What's good about the Lord
Is that He has eternal love
For you and me only if we accept Him
wholeheartedly

(table of contents)

The Second (and Eternal Time) I Loved Again

He loves you and me
More than you and I will ever know
For He once did it when He died on the cross

And so I learned to stand up again
And give the Lord all my love
This I will do for all eternity

(table of contents)

Love Songs Make Me Feel Brand New

I sing this song for the Lord
Because with Him
My heart is overjoyed

I sing this song
To praise His name
Be it night or day

I asked the Lord why He loves me
And I sang a song
Of thanksgiving

My heart grew happy
All the way through
Then I'm made brand new

Whenever I hear a sad song
I'm buried deep inside my heart
For I know that this is true

My life had been rather hard
I wept so much all my life
Until the time I found my God

(table of contents)

Love Songs Make Me Feel Brand New

A mighty wind swept away
And I was taken to another place
I didn't know the Lord did wait

He wants to show me many things
Including this lovely song I sing
To lift my heart out of misery

I love the Lord with all my heart
For He brings me many love songs
That make me feel brand new

I love the Lord my God so much
For He eases the pain I have
Then happiness reigns and rules

"Truly", I say to Him
"My heart will always be Yours
And You will be my Everything"

(table of contents)

Love Songs Make Me Feel Brand New

Then we'll both realize
That love songs make us wise
For to love and be loved is the greatest song of all

(table of contents)

A Preview of Heaven (Through Your Words)

I know Heaven
Is a very beautiful place
And I wanna be there

Your Word, Lord
In the Holy Scriptures
Testify to it

I only have to have faith in You
Along with many good works as a result
Then You'd allow me to enter

No artwork or photo
In this world
Can truly reflect the beauty of Heaven

The artists have tried to paint it
But no, not one
Came close

(table of contents)

A Preview of Heaven (Through Your Words)

Heaven is so real
That everything in this world
Will feel so dead

Your glory emanates
From Your Heavenly throne
O Lord

Your greatness
Comes before You
And baffles the nations

You alone can take on Your enemies
But You've given them time and again
To repent of their sins

To get to Heaven
Is no easy feat
Because of trials and hardships

(table of contents)

A Preview of Heaven (Through Your Words)

But You promised to be with us, Lord
Even in the most difficult times
You are carrying us with Your mighty right hand

So increase our faith and love for You
For us to be counted worthy
To connect the past, present and future for all eternity

(table of contents)

The darkness Will Fade

The Lord Jesus Christ
Is the Light in our lives
The darkness will vanish

He travels so fast
Conquering everything
Along the way

He shines so bright
And with a radiating glory
The darkness will fade

He illuminates the path
Of people in repentance
And guides them back

He is the Sun
The ever glowing Son of God
Who never runs out of fire

His flame penetrates you and me
So that we'll come to see
His fiery love and beauty

(table of contents)

The darkness Will Fade

He subdues all darkness
And they are afraid of Him
That’s why they run away

He is our overarching rainbow
That renders the sky beautiful
And makes you and me sing

The Lord Jesus Christ
Is the true Light of the world
He is superior to the moon, sun and stars

For when the new heaven and new earth arrives
No more sun, moon and stars will give light
But the Lord Jesus Christ

So treat the Lord well and with love
And let Him enter our hearts
And change our spirit and lives

(table of contents)

The darkness Will Fade

For the Lord has a double-edged sword
And it will cut asunder
Through our body, spirit and soul

(table of contents)

You Are My Everything, (Lord Jesus Christ)

When I am sad and feeling blue
I look up to You
Then I feel brand new

When life gets tough
And turns to sour
I seek You with my heart's desire

When I am overwhelmed
By continuous changes in my life
I close my eyes and think of You

My seeking for You
Becomes successful and true
When I've finally found You

Your cross and blood is the key
To all precious things in Heaven
That only we can choose to receive

(table of contents)

You Are My Everything, (Lord Jesus Christ)

You give me everything I need
The songs I sing and commands I heed
But most importantly, You are my Everything

You travel from the sun
To the Earth beforehand
To give me a fiery light of love

You travel from the planets
And enter my heart
As I cry the tears of wanting bliss

You gave me life
As the rotting tree
Cursed and damned, but You came to save me

There's nothing more
That's better than You
For You give me love that's O so true

(table of contents)

You Are My Everything, (Lord Jesus Christ)

You are my Shield and my Sword
Driving my enemies away
To bring them back home

So the love You give, Lord
Is shining through
Carrying my heart and soul to You

(table of contents)

I Don’t Need The World

The world is a battle place
Between the armies of good
And the forces of darkness

I am in the world
But not of the world
Because I put my trust on the Lord

The Lord has saved me time and again
From the cruelty of the world
And people therein

The world could have been a nicer place
If only sin had not permeated
Eversince the fall of man

I love the Lord more than the world
More than the world could ever know
Because He is my Everything

He is the only source
Of the poems I recite
And the songs I sing

(table of contents)

I Don’t Need The World

Like fire coming from my mouth
And my lips declare
His greatness and goodness forever

The Lord is my Strength
He carries me with His mighty hand
And never lets me go

He is my reckoning
My understanding
And the bright future of a hope that’s beginning

He is the mighty wind
That sweeps me away
And brings me to good pasture

I don’t need the world
I just need the Lord
For with Him, my life is complete

(table of contents)

I Don’t Need The World

The world cares about wars
Affliction, suffering and pain
But the Lord brings them all to nought

(table of contents)

My Healing Story

I started to have epilepsy
When I was six
I could not stand without falling on the floor

I could see rainbow colors
With my eyes
Which were like moving graphs of sines and cosines

The pain in my head begins
So excruciating
That I became temporarily blind

Epilepsy stretched
From grade school to college
And the attacks were gone, no more

College was when I fell in love
With a girl in my similar course
Chemistry it is, to love is my cause

(table of contents)

My Healing Story

But my days turned into nights
When the girl seemed out of sight
For she already has someone else

The brokenheartedness and pain
Had caused me to be left behind
While others graduated from college

The pain left in my heart was so strong
I couldn’t eat for three meals
I couldn’t sleep for nights

This paved the way for my last
Severe depression took the best of me
And left me clinging, having nobody

Sleepless nights were inverted
For I now slept a lot during the day
And ate a lot of chocolates

(table of contents)

My Healing Story

My severe depression finally took its toll
And I was on the verge of being called
As someone with bipolar disorder

But that is not entirely true
It’s just that I had loved a lot and hurt a lot
And that’s all there is to it

(table of contents)

Humility Conquers All

The Lord Jesus Christ will lift me up
Because I humble myself
And serve Him a lot

He causes me to go up
From a downward spiralling
And restores all things lost

When I am down and feeling blue
The Lord is there for me
Sitting beside me listening to my story

I loved the Lord since I was small
For I gave alms to the poor
And helped the needy

Sometimes I exceed my rank
I grow prideful and arrogant
And the Lord was quick to pull me down

For there are only two
From up above to down below
Or vice versa, you have to choose

(table of contents)

Humility Conquers All

But the Lord is good
To those who love Him
He teaches them the necessary lessons

And to those who are lost
He gives so many chances
So they can amend their crooked ways

The Lord offers His warm embrace
To welcome those that are humble
No matter what color, status or race

He makes me glad and smile
For deep in my heart I know
That I love Him so

He travels from His Heavenly Throne
To finally take me home
And show the love that I deserve

I smile back to Him
Because I know deep in my heart
That He’s my One and Only

(table of contents)

12, Not 10

1 plus 2 equals 3
1 is God the Father
While 2 is the Lord Jesus Christ and the Holy Spirit

12 pertains to the 12 tribes of Israel
Or the 12 apostles of Jesus Christ
Or the 12 gates and pearls of the New Jerusalem

In math, base 12 is superior to 10
Because 12 has 1, 2, 3, 4, 6 and 12 as its factors
While 10 only has 1, 2, 5 and 10

When you start with 12
You can add 1 plus 2
And come up with 3

Then adding 1 plus 2 plus 3
Gives us 6
Then goes 1 plus 2 plus 3 plus 6

(table of contents)

12, Not 10

Finally gives us 12
Realizing that we go back again to 12
And the race is finally over

12 is a God number
Which we can find in the clock
Or in the number of months

60 seconds and 60 minutes
Are also divisible by 12
As well as the 360-degree angle

Then you start with 12
Add 1 to 1 and 2 to 2
And you will get 24

So you see, the ones place is double the tens
And the tens increases by 1
While the ones increases by 2, or tens times 2

(table of contents)

12, Not 10

For example, 24 is 1 plus 1 times 2
36 is 1 plus 2 times 2
48 is 3 plus 1 times 2

In reverse subtraction we have
60 is 6 minus 1 equals 5 times 2 equals 10
So 60 divided by 12 is 5

(table of contents)

In Studying the Living Dead

We as humans study algebra
Geometry, trigonometry, calculus
Biology, general chemistry

Analytical, organic, physical
Inorganic, biochemistry, physics
Electronics, computer programming, gaming

Hardware, software, security
Networking, game programming
Photo editing, video editing, and accounting

They study these dead subjects
Which is all about the world around us
Where only biology qualifies as living

But biology is never even close to eternity
The life that Jesus Christ gives
For those who love Him

(table of contents)

In Studying the Living Dead

As Christians we must be in the world
But not of the world
And these subjects are of the world

But there will come a time
When Jesus Christ will allow us
To study these subjects in Heaven

Heavenly Symbols for algebra
Heavenly Structures and Resources for geometry
Holy Trinity for trigonometry

Glorification for calculus, Eternal Life for biology
God's Love for general chemistry
Faith and Trust in the Lord for analytical chemistry

(table of contents)

In Studying the Living Dead

True Love for God for organic chemistry
Glorified Bodies for physical chemistry
Heavenly Mansions for inorganic chemistry

Eternal Love for biochemistry
Diligence for physics
Loving Connections for electronics

Freedom for computer programming,
God's Help for gaming
Brotherly and Sisterly Love for networking
And Graces and Blessings for accounting

(table of contents)

Memorize

It’s easier to memorize
Something you don’t understand
To fill your mind with colors, numbers, words and appearance

On the other hand
It’s imperative to analyze
Those you are already familiar with, memorized

The periodic table of elements
Must be memorized
Especially because the pattern is hard to elucidate

The periodic table
Only has letters, numbers and symbols
So that it doesn’t make much sense, we can’t relate

(table of contents)

Memorize

Poems, novels and other works
Have only words
So that they’re easy to understand

The periodic table
Has nothing more to offer
Than just mazes and puzzles

I tried time and again
To unearth he mystery
In this so-called chemistry

Because I chose the Lord
More than chemistry, giving up on it
He revealed the mystery to me

He said, “My child, in order to understand
The periodic table of elements
You must memorize it based on sound”

(table of contents)

Memorize

Then suddenly my mind was enlightened
Shortly after, I was reading the table
With a confident voice

I memorized the periodic table
From left to right
And top to bottom

I thanked the Lord for this feat
For if you truly love Him
He'll reveal to you the secrets of the deep

(table of contents)

Chess

Sometimes it’s fun to play chess
Especially when you’re up against
A stronger opponent

Chess is a battle
Between the Kingdom of Light
and the kingdom of darkness

The White Side moves first
Just like our Heavenly God the Father
Initiated giving His Son for us

If you have the White Pieces
You are fighting for the Kingdom of Heaven
And you are a soldier of the Most High God

If you have the black pieces
You are in the kingdom of darkness
Led by satan and his cohorts

(table of contents)

Chess

The opening, middle and endgames
Pertain to your life as a Christian
Beginning from birth to childhood to adulthood

The moment we lose the game
Is the time that we die
And leave this world for Heaven or hell

We must strive hard and pray to the Lord
To give us guidance and directions
So that we'll make the right moves

If ever we make mistakes
And err along the way
Let us repent to the Lord so He can save us

We can make a turnabout
And still defeat the enemy
Instead of losing immediately

(table of contents)

Chess

If we are on the black side
Let us not fight the Lord
And please the kingdom of darkness

Let us just surrender our lives
So that the Lord can save us
And receive us in His Holy Kingdom

(table of contents)

Spiritual Warfare

Every morning, every day
I do Spiritual Warfare
Inside our home

I first pray to the Lord
Inside my bedroom
Kneeling to give respect

Then I listen to Spotify
For Christian Worship songs
Such as Hillsong and Citipointe

Then I sit before my laptop
Opening it and heading to
King James Bible online

I open both the Old and New Testaments
Where I last left
Right where the bookmark is

(table of contents)

Spiritual Warfare

I read one chapter for each
Then I move on to CTC
Or Christiantruthcenter.com by Joshua Munguti

After reading one blog article
I move on to Heaven and hell testimonies
Written by Mary K. Baxter on Wattpad

Then I move on to reading
Hell Testimonies by Mike Peralta
And the Christian books by Witness Lee

After this, I open my copy of
The Reformation Heritage KJV Study Bible
A study Bible to feed your soul

I read one chapter for Old Testament
One chapter for New Testament
And one section after the Old and the New

(table of contents)

Spiritual Warfare

After this, I go back to my bedroom
And watch YouTube Christian channels
For thirty minutes

This kind of dependence
On the Spiritual Warfare by the Lord
Gives me Strength as a Soldier of the Lord

(table of contents)

Beauty, Stability, Logic and Order

There is Real Beauty in Heaven
Stability among the nations
Of the New Jerusalem

There is Logic in our God
The Way He loves the nations
And sends Blessings from Up Above

There is Order in the world
After satan and his cohorts
Were dispelled from the Heavenly Realms

Beauty never vanishes
From the place
Where our Lord Jesus Christ reigns

Stability is the emancipation
From the wicked forces over the nations
That tend to disrupt the Continuity

Logic is from God Above
Which He gives to humans
In return for the love of His Son

(table of contents)

Beauty, Stability, Logic and Order

Order is to rule with Love
To abolish harsh laws
That endanger the souls of men

Beauty, Stability, Logic and Order
The four of these God gives
To those who love His Son Jesus

For in the world there is trial and tribulation
But we will see the Kingdom of Heaven
Descending from Above

In Beauty there is Stability
And from Logic there is Order
Graces and Blessings that come from God

God revealed these to me
So that we will always remember His promises
To those who love Him truly

(table of contents)

Beauty, Stability, Logic and Order

Until now, beauty, stability, logic and order
Can only be found in the world
Which we must set our eyes through

(table of contents)

Time Machine

There is no such thing
As a time machine
Which will get us back to the past

For if we do have
We will abuse it
And change the way we live

We will always travel
To change our mistakes
Until our lives have become perfect

But we can never be perfect
For in every sin that we commit
Our perfection is marred over and over again

That’s why there is Jesus
Who came down from Heaven
To pay the penalty for our sins

(table of contents)

Time Machine

He is our Time Machine
For if we only truly repent
We will be forgiven of all our sins

He will erase our dirt in the past
Make it clean anew
Guiding us to never sin in our present and future

But to be really cleared from sin
We must promise the Lord to frequently repent
In order to take maximum advantage of His gift

The Lord Jesus Christ
Is truly our Time Machine
For He removes our stain in the past

This is what He gladly does
For all who come to Him
He guides their present to give new hope for the future

(table of contents)

Time Machine

That future is Heaven
Where everything is beautiful
And outstanding

No words can describe
The happiness and joy in our lives
When we get to Heaven

(table of contents)

Perfect Obedience

You and I
Are not perfect
Before God's eyes

That's why we need Jesus Christ
Who is the perfect Son of God
Who redeemed us from all sin

He started His ministry on Earth
In sole obedience to God
Healing the sick, doing miracles

He prayed for demons to cease
Their operations on the possessed
And let them out of their bodies

He distributed loaves and fish
To the hungry crowd
Who waited for Him for days

(table of contents)

Perfect Obedience

He taught them with parables
And His disciples to pray
In accordance with God's Will

He taught His disciples
And made them ready
For the Great Commission

He endured pain, suffering
And death on the cross
To save us from our sins

He ascended into Heaven
And gifted the Holy Spirit
For those who accepted Him

For when the right time comes
He will return to Earth
And gather His true followers

(table of contents)

Perfect Obedience

He will lead them to Heaven
In the Rapture
For their faith in Him and good deeds thereafter

So only the Lord Jesus Christ
Had, has and will have
Perfect obedience in God's eyes

(table of contents)

God’s Sovereignty

God the Father is Sovereign
On all of His creation
Creatures and created

He travels through vast waters
And gives life
To all He passes through

He travels through the air
And gives life
To singing birds

He travels through space
And gives life to the planets
His powers they do embrace

He travels through mountains and land
And gives life
To animals and plants

He travels through the soil
And gives life to man
Whom He adorns

(table of contents)

God’s Sovereignty

He travels through man
In his body, spirit and soul
He knows the in-depths of his thoughts

He travels through his heart
And teaches him how to pray
To our Lord Jesus Christ

He reigns in Heaven and on Earth
He forgives the sinners
And brings the evil to hell

He touches my soul, heart and mind
So that I can sing songs to Him
And compose this beautiful poem

He has control of space and time
And the whole universe
And He is not under them

For He is the Maker of all
Both great and small
For He loves them all!

(table of contents)

Let the Lord Lead

I will not be under the influence
Of principalities and powers
For only the Lord will lead me

I will not do evil
Especially in the eyes of the Lord
And He will guide me out of destruction

My soul is precious
To the Lord, my God
For He made it

I will forever praise His name
With the voice
He gifted me

I will thank Him forevermore
For it is good
In His ears

I will help the weak and strong
For He wants us
To love all

(table of contents)

Let the Lord Lead

I will forgive my enemies
Both strong and tall
So that His confidence will be in me

I will give thanks
To the Lord, my God
For His many blessings

I will use them all
To further His cause
And obey His commandments

I will not turn away
From the scientist or mathematician
For they deserve to have faith in the Lord

They have gone astray for a long time
But my Lord Jesus Christ
Will bring them back to His pasture of faith

(table of contents)

Let the Lord Lead

I will thank the Lord
With all my soul
For He loves everyone, notwithstanding

(table of contents)

The Lord is the Solution to Every Problem (and the Beautiful Conclusion)

I imagined the days
I was working in the lab
Without any breakthroughs

I looked to God
And up above
I wished new problems would arise

To bless me and my work
As scientist would endure
There’s no better luck after all

I wished I could have a problem to solve
To advance my name
In the industry foretold

The scientific method I used again
To bring advancement
To my dying understanding

(table of contents)

The Lord is the Solution to Every Problem (and the Beautiful Conclusion)

I would fulfill the hypothesis anew
For it will be much greater
Than the one I had to brew

It’s not fun to have no experiment at all
For when this time comes, I have
something to show
A theory that lurks in the shadow

I have found my specialty
A proven law for you and me
For I love the way You observe things

I hope that I would finish the game
Of tit-for-tat that makes me insane
The scientists grew tired of remembering
Your name

(table of contents)

The Lord is the Solution to Every Problem (and the Beautiful Conclusion)

For You O Lord are my Solution
To every problem that comes my way
And for the paper, a Beautiful Conclusion

So give me Lord Your time and attention
For I love the way You treat Your creation
By solving their problems through instant intuition

But this is not yet the end
For the scientific method
Has found his new friend

(table of contents)

Imperfect

I am nobody
A man wandering
In the isle of destruction

I could have foretold
The waiting construction
To get their attention

I was supposed
To make life anew
Without imperfections

But now I’m tired and ruined
My soul seeks nothing
Neverending

The soap in the clut
Has made them dozen
As the rise and fall of a tyrant king

The submissive dew
Prevents the storm
From falling into the corridor

(table of contents)

Imperfect

The life of a pitiful stranger
Was never accommodated
In a manger

The life so called and freezing day
Has let out his arms
In chew by the way

The riveting drama
That the fathers foretold
Was nothing more than a heap of gold

It’s interesting to see
The sky is lurking
By the beach

The grammars are endlessly wavering
To attain the childhood star
That clouds can bring

The imaginative reception
Brings some bountiful conclusion
To the end that’s far and near

(table of contents)

Wisdom, Knowledge and Intelligence

The wick of the candle
In the dark
Has softened the existing atmosphere

The dew probably died down
And walked its way
Into melting sincerely

The revenue collector’s bag
Finally puffed anew
And sighed

The burning torch
And undying flame
Was foretold a long time ago

I never thought he was insane
To let the zebras
And chickens go

The life that I once had
Had burned
Into the deepest quagmire of stern

(table of contents)

Wisdom, Knowledge and Intelligence

The pretty scientist I once knew
Was off her feet
And dragged into view

The doctor’s spectacle
Was dry and clean
Until the beginning of a risen king

The judge of nations once wore might
But then together
No sin was right

The beautiful archeries battle
That left the spirit and soul
Asunder

The gorgeous hymn off passing by
Had cracked the puzzles
All day and night

The mighty orchestration and will
The maths that roam the eagle still
Above aboard the kaleidoscope seal

(table of contents)

Nothing is Impossible with God

I never get tired of following the Lord
Especially in times of shaking
The Lord knows my heart's for Him

I fell in love with the Lord once
And I will fall in love again, twice
And three times

For it's not enough to fall in love once
But three times for all eternity
Raining down blessings for you and me

He can do all things, yes He can!
For those who trust in Him
His rewards are so much more than the soul can take

He is capable of doing everything, yes He is!
He lauds the mighty
And loves the small and weak

(table of contents)

Nothing is Impossible with God

Anything for Him is holy
That's why He can do them
He's God Almighty

The loaves and the fish are full of nourishment
And He can feed the thousands waiting
Truly, nothing is impossible with Him

He cares for your frailty
And promises to remove your sins
Truly, He is a God of humility

He protects the suffering
And gives hope to the hurting
Truly, He is a God of love

He offers salvation to all
Gives them chances to repent
And sin no more

(table of contents)

Nothing is Impossible with God

He can be fast, strong, big and tall
His words have the power to cast down
His enemies
He is very dependable and reliable

Your faith in Him can increase
hundredfold
That you will never experience again
The sufferings of this world

(table of contents)

Seek Him First

Seek the Lord first in your daily life
Seek Him without ceasing
So that you'll find meaning in your life

Seek Him first and His Heavenly truths
So that rest assured
You can go on with your life unabated

Seek Him first and the Holy Trinity
So that whatever you do
You will experience great joy and bliss

Seek Him first and constant repentance
That will lead you straight to justification
Sanctification and glorification

Seek Him first and His eternal life
That He gives copiously
To those who truly love Him

(table of contents)

Seek Him First

Seek Him first and God's love
And you will certainly enjoy
Blessings from up above

Seek Him first and faith and trust
That gives you His grace
And freedom enduringly and steadfastly

Seek Him first and true love for God
So that you'll realize
The true meaning of love

Seek Him first and His eternal love
So that you'll be in line
For the outpouring of His glory

Seek Him first and His loving embrace
So that you'll feel a love so strong
There's no letting go, in His Heavenly throne

(table of contents)

Seek Him First

Seek Him first and His freedom and help
So that you’re sure to succeed
Without disappointing yourself

Seek Him first and His Fatherly love
So that you’ll never taste defeat
In the hands of your enemies

(table of contents)

Love Of God In Christ

The logic found in algebra
Is different from the logic
Found in biology

The logic found in geometry
Is different from the logic
Found in general chemistry

The logic found in trigonometry
Is different from the logic
Found in analytical chemistry

The logic found in calculus
Is different from the logic
Found in organic chemistry

The logic found in physical chemistry
Is different from the logic
Found in computer programming

The logic found in inorganic chemistry
Is different from the logic
Found in computer networking

(table of contents)

Love Of God In Christ

The logic found in biochemistry
Is different from the logic
Found in computer security

The logic found in physics
Is different from the logic
Found in accounting

All of these logic share the same thing
That they are under math, science and computer
And that applied math is science and applied science is computer

But there is a bridge that connects the three
Because math is different from science
And science is different from computer

(table of contents)

Love Of God In Christ

That bridge is called LOGIC
Or Love Of God In Christ (Jesus)
To love wisdom, knowledge and intelligence is to love God first through Jesus Christ

Jesus Christ is the bridge
That connects math, science and computer
All we have to do is have love and faith in Him

(table of contents)

Father Always Instructs The Heart

God is always happy about us
When we seek His Word
And obey His Son's commands

He brings us ready to the greener pasture
He wipes away our tears
And promotes us to a better stature

He uses our mind, body and soul
To receive His gifts
With instructions to follow

He is on our side when we are weak
When the heart is frail
He inspires us deep within

He instructs our hearts to follow Him closely
So that we'll never depart
From His love, faith and trust

(table of contents)

Father Always Instructs The Heart

He instructs us anew when we miss the mark
When we go on our own way
And lead life astray

He wants us to get to Heaven
Where all riches are precious
And all blessings are humongous

He wants us to have faith in His Son
Which is greater than the sea of gold
And a mountain of diamonds

He wants us to lead a righteous life
Always depending on His precepts
And bringing forth fruits from His commands

He wants us to repent
To forgive and be forgiven
Between our neighbours and ourselves

(table of contents)

Father Always Instructs The Heart

He wants us to be consistent
In our thoughts, words, deeds and reasons
The motives of which reflect the path we're treading

He wants us to love Him
And enter, walk and finish the narrow road
And leave everything behind, notwithstanding

(table of contents)

How to Read Efficiently

Whenever I read algebra
I think of letters, numbers and symbols
And how they interplay to produce a resolve

Whenever I read geometry
I think of shapes, contours and symmetry
Which align the world with God Almighty

Whenever I read trigonometry
I think of the Holy Trinity
And the love They have for you and me

Whenever I read calculus
I think of the Immutable God
Who fulfills His promises to us

Whenever I read biology
I think of life and God's creation
And how they adapt to every situation

(table of contents)

How to Read Efficiently

Whenever I read general chemistry
I think of God’s great love for us
Which I wouldn’t comprehend

Whenever I read analytical chemistry
I start to have faith and trust in Him
The One who saved me from all my sins

Whenever I read organic chemistry
I think of my love for God
That it’s always a treasure in His eyes

Whenever I read physical chemistry
I long for the moment of glorification
When I will have a glorified body in Heaven

Whenever I read inorganic chemistry
I think of Heavenly Mansions
That God has created for my fidelity in Him

(table of contents)

How to Read Efficiently

Whenever I read biochemistry
I think of the eternal love
That God has for all of His creation

Whenever I read physics
I worship the Lord my God
Together with the heavenly bodies in orbit

(table of contents)

Always Safe with You

When times of trouble come passing by
I never withdraw from Your mighty hand
You rescue me from all the peril

When storms and cyclones
Release their fury
I seek Your cover and find my safety

I never asked for any danger
They quickly come to ensnare my soul
And weaken the bond between me and my Saviour

I never trusted anyone
I only put my life
In Your protective arms

To evade the earthquakes and volcanic wrath
Is an impossible feat
But You provide a helping hand

(table of contents)

Always Safe with You

The fishes in the sea and birds in the air
Are all safe with You
They've been tightly held

But because of my sins
In my past and present life
I feel guilty and drive You away from my side

So give me another chance
Even one last chance
For I want to repent and be forgiven this time

I want You by my side all the time
So that whatever tsunami or force of nature may come
I'll always be safe in Your loving shelter

(table of contents)

Always Safe with You

You are my Shield against strong rain and hail
You snatch me away from fires and brimstone
And You hold me dear, unrelenting

Even if asteroids, meteors and comets
Come raining down on Earth
I will be safe with You

For You truly love me
You always desire me close
In Your loving abode

(table of contents)

Justification Entails Saving Us Sinners Christ Had Risen In Salvation Triumphed

Jesus Christ is a beautiful name
JESUS stands for "Justification Entails Saving Us Sinners"
And CHRIST stands for "Christ Had Risen In Salvation Triumphed"

God starts by showing us His Word
Which can be found in the Holy Scriptures
In the Bible

We then respond by listening closely to the Word
Not just hearing it
But seeking to fully understand it

The Word has the power to change us
And cultivates and transforms our faith
For the Kingdom of God is not in word but in Power

(table of contents)

Justification Entails Saving Us Sinners Christ Had Risen In Salvation Triumphed

Once our faith grows, we have occasions to stumble
We have the chance to repent
And be forgiven of our sins

Our growing faith and repentance
Result in justification
Where we are made righteous in the sight of God

Then God gives us more tasks along the way
This is called sanctification
Where we are made holy by the continuing grace of God

Finally, if we make it in the Rapture
Or get to Heaven because of our faith and good works
Not just good works as some would perceive

(table of contents)

Justification Entails Saving Us Sinners Christ Had Risen In Salvation Triumphed

We will go through the process
Of glorification
Where there is no more sin and pain in our glorified Heavenly bodies

In these seven processes in our faith
There is no such thing as “once saved, always saved”
A belief that we are saved even when in sin without the need for repentance

Jesus died on the cross once
Was resurrected and ascended into Heaven
And is seated at the Father’s right hand

(table of contents)

Justification Entails Saving Us Sinners Christ Had Risen In Salvation Triumphed

As Christians, He is our role model
To respond to His call to repent, be saved, be justified, be sanctified and be glorified is our greatest God-given mission of all

(table of contents)

I Found My Love

Chemistry is not just a course
If we rearrange the letters
In the word

We will realize that Chemistry
Becomes “Christ y me”
Where “y” in Spanish means “and”

So the whole story
Is found in the word
For there is chemistry between Christ and me

This is no coincidence
This has been foretold time and again
For the love of Jesus for us humans is a bond so strong

So let us convert the word “chemistry”
To “love”
Then will we realize that there is more to chemistry than just chemicals and reactions

(table of contents)

I Found My Love

The Lord Jesus Christ loves us so much
That He allowed His name to be inside chem
For all the hardship, suffering and pain
He endured

C for carbon actually stands for Christ
It has the atomic number 6 (the number of letters in Christ) and atomic mass of 12
Which is a holy number of God

For 1 plus 2 equals 3
1 is God the Father
And 2 is the Lord Jesus Christ and the Holy Spirit

Carbon is the central element in organic chemistry
Because it has the power to form bonds
From 1 to 2 to 3

(table of contents)

I Found My Love

Like “I love You once”
“I love You twice”
“I love You three times”

The single, double and triple bonds
Are not a coincidence
But emanate from God

Organic chemistry can be replaced
By our True Love for God
Because of all the good things He has done for us

(table of contents)

I Was Never Meant to be a Chemist

Chemistry is a difficult subject
First, you have to form some theories
And test their validity through
experimentation

If the theory is wrong or incomplete
You have to change or improve it
And initiate the cycle of change

Chemistry is not called “the central
science” for nothing
The chemist works so many hours
Trying to find solutions to problems in a
scientific way

The scientific method is rigid enough
So that the method itself is changed time
and again
Entering us again into the cycle of change

(table of contents)

I Was Never Meant to be a Chemist

It is like a time machine and time travel
We go back to start and correct the errors
So that we can come up with perfect results

But this is not the way the Lord wants us to proceed
For there are far more important things
Than solving problems and testing theories

He wants us to show
That chemistry is alive
And that Christ is in between you and me

The Lord wants us to love our neighbours
As we love ourselves
And as Christ has loved us

(table of contents)

I Was Never Meant to be a Chemist

He wants us to forgive and forget
To heal the wounds and remove the scars
To be perfect in holiness in submission to His Will

That's why I never succeeded in chemistry
For I have turned it around
And love has found me

First, I love the Lord God through Jesus Christ
With all my heart, mind, soul and strength
And I love my neighbours as Christ has loved me

Finally in the end we will all realize
That chemistry is more than just chemicals and theories
For to love and be loved is its true meaning

(table of contents)

True Meaning

The true meaning of life is love
For life means “love is found everywhere”
And love means “life offers valuable emotions”

With life, we will know how to love
And without life
We will be good as dead

With life, we will go through many emotions
Such as happiness, gladness, joy, bliss, love, fear, sadness, sorrow, grief, and anger

Happiness, gladness, joy and bliss
Cause us to have
A bright white shining radiating light

(table of contents)

True Meaning

Which if we share with others
Also cause them
To exhibit the same in return

Love forms bonds and connections
Between life forms
God, angels, saints and humans alike

When love is formed, it brings happiness,
gladness, joy and bliss to our souls
When love is broken, it results in
sadness, sorrow and grief

Sadness, sorrow and grief
Are the downward spiralling of the soul
They keep our head down in losing
composure

(table of contents)

True Meaning

We cry the tears of pain, suffering and loss
We can never be consoled
And comfort can't bring us back home

Fear generates respect
It is the beginning of wisdom in us
When we truly love God and put Him first above all

Anger is the fiery flaming burning smoking hot emotion of the heart
It never ceases to exist, destroys ruins annihilates its path

Life has all of these purposeful emotions
Like comedy, romance, drama, horror and action shows

(table of contents)

Our Body is the Temple of God

God the Father, the Son and the Holy Spirit
Resides in our bodies
Once we accept the Lord Jesus Christ as our personal God and Saviour

The Holy Trinity sets our paths straight
And sets our lives right
In order for us to obey His commandments, will, laws, judgments, and words in the Holy Scriptures

He teaches us all things
He whispers words of love and consolation
Whenever we seek Him with our all

He fights for us in spiritual warfare
So that we are never crushed
By the enemies' bulldozing bludgeoning wicked acts

(table of contents)

Our Body is the Temple of God

He gives us time to fast
So that we may increase our spiritual strength
That we can use to see and hear
Heavenly truths

He teaches us to repent
So that whatever we have done in the past and the present
Will be utterly forgotten

He brings us joy and peace and love
That the gifts and fruits of the Holy Spirit
Will be evident in our lives

He teaches us to humble ourselves
So that the path to take moves us up
Rather than a downward spiralling

(table of contents)

Our Body is the Temple of God

He loves us so much with a love so true
So that our body, soul and spirit bursts in happiness, gladness, joy and bliss

He shows us the eyes and mind of God
So that we will kneel in submission
And worship praise and thank in wonder awe and amazement

He lifts us up when we're down
And pulls down strongholds principalities and powers that try to darken and destroy our hearts of flesh

And when that day and hour comes
He will meet us up in the air
And will lead us to enjoy eternal life in Heaven forever

(table of contents)

Why I Write

I write the poems
That teach the soul
And inspire the heart

I write based on what I hear
From the Lord Jesus Christ
Who is always near

I write according to His will
His words are true
And His intentions are clean

He wants me to experience
Mountainous dry lands
And vast waters and oceans

(table of contents)

Why I Write

He wants me
To endure
Hardships and problems

For in the end
When I succeed
I'll be given the crown indeed

And when the time gets tougher still
He will be there
To guide me for real

I listen to His beautiful voice
That dictates the words
I need to write

(table of contents)

Why I Write

He uses my hands
To make the strokes
And empty my mind on the cellphone

I type every letter number and symbol
As a token of my love
For Your unending ensemble

I trust in Your words
For You utter truth
Dividing asunder the heavenly worlds

With You, I can write the poems
And sing the songs
That make all things new

(table of contents)

Life Has No Meaning Without the Lord

If you don’t have
The Lord Jesus Christ in your life
Your life would be meaningless

Math sci and comp
Can drive us away from God
When we explore without His helping hand and guidance

Like algebra without letters numbers and symbols
Like geometry without points lines and shapes
Like trigonometry without triangles and angles

Like biology without life
Like general chemistry without all-encompassing love

(table of contents)

Life Has No Meaning Without the Lord

Like analytical chemistry
Without a sharp discerning mind
Like organic chemistry without love deep within

Like physical chemistry
Without the love for numbers
And imagination

Like inorganic chemistry
Without appreciation for the non-living
Like biochemistry without love for life

Like physics without diligence
In our thoughts words and actions
Like electronics without connections

(table of contents)

Life Has No Meaning Without the Lord

Like software without soul
Like hardware without the body
Like programming without syntax
semantics and logic

Like gaming without god-mode
Without which you will always lose
To the enemy because of difficulty

Like networking without sharing
Like security without protection
Like accounting without bookkeeping

All of these things show
That without the Lord Jesus Christ in our lives
We will be like the blind groping in the dark without any chance of getting out and seeing the light

(table of contents)

Why Math-Sci-Comp is Difficult

Math-sci-comp becomes difficult
If and only when we go on our own way
Instead of listening to what God has to say

The Lord is interested in everything we do
May it be math science or computer
All of these are His gifts for you

He wants you to succeed and prosper
And achieve your dreams and ambitions
And fulfill your plans and goals

But first you have to come to Him personally
And accept Him as your personal God and Saviour
And everything else will be free and easy

(table of contents)

Why Math-Sci-Comp is Difficult

The Lord wants us
Not to love math-sci-comp more than Him
For that would be idolatry already

He wants us to love Him first
And His Kingdom and His Righteousness
And all of the rest will be added unto you

He wants us to obey His each and every commandment
And listen to His still small voice
For He is willing to share with you all the secrets of Eternity

We must also love our neighbours
As He has loved us on the cross
By helping them and not in competition

(table of contents)

Why Math-Sci-Comp is Difficult

Then the light of the Lord
Will shine brightly upon your life
And elucidate in you all the mysteries of the Universe

If you're a mathematician, scientist or computer engineer
Listen to what God has to say first
Before embarking on your journey

Pray to the Lord and seek His will
Put your whole faith and trust in Him
So that your journey will be a journey of success and enlightenment

For the Lord our God
Is our Solution to every problem
And the Beautiful Conclusion, worlds without end

(table of contents)

Prayer – God's Line with Us

In my Spiritual Warfare
I kneel next to my bed and pray
The following prayers to God:

Lord God Father
Lord Jesus Christ Saviour
And Holy Spirit,

Thank You for the life You have given me
And the love I share with You and my neighbours – Family relatives friends and strangers

Thank You for all the beautiful things
You have bestowed and blessed me with
Including Your everyday will, commands, laws, judgments, and words in the Holy Scriptures

(table of contents)

Prayer – God's Line with Us

Thank You for dying on the cross
For my sins, resurrecting and ascending to
Heaven to be my role model to have eternal life

I praise You for Your honor glory power might strength and speed in doing things in my life
I praise You for the wonderful Being You are, my God and my Saviour

Please forgive me for the times I have sinned
against You, transgressing violating and breaking Your laws and rules

Forgive me for coming short of who You want me to be, an obedient Child of God perfected in faith hope and love

(table of contents)

Prayer – God's Line with Us

Please help me to be the son You want me to be
Not living in idolatry and loving You more than the world creation created and creatures

Please help me to understand Your love for me
Loving You with all my heart mind soul and strength, and loving my neighbours as You have loved me

Please teach me to be obedient and follow You always
To deny the world and flesh and carry my cross
And to enter walk and finish the race in the narrow road

(table of contents)

Prayer – God's Line with Us

Increase my faith to trust in You always
So that someday I will also make it to the beautiful Garden Cities in Heaven
All these I ask in the name and through Your Son and our Lord Jesus Christ.
Amen.

(table of contents)

Full Potential

When I was a child
I was nobody, was always
Sick with epilepsy

Until the Lord said
“My child, that’s enough”
“I will give you a goal to dream and fulfill”

And so I studied well
In my elementary and high school years
I even got some honors and awards

I really loved studying a lot
Math language reading science and computer
It was just the best days of my life

(table of contents)

Full Potential

Then I went to college
And the environment was very different
There's just too much to study

And so I questioned myself
"Is chemistry the right course for me?"
For my high school friends took management

Then one day my question was answered
I looked to my right and there she was sitting
My blockmate in chemistry is shining through

Since that time, the girl and I became close
We were always together, battling obstacles and remorse

(table of contents)

Full Potential

I thought we can be more than friends
But I was wrong
For she already had someone else

At that time, I was so heartbroken
But the Lord didn’t abandon or forsake me
He became my climbing hill

When I got to the top
I experienced the love peace and joy from God
He was already training me to be His soldier

For after that moment
I grew more and more in my faith in the Lord
The perfect time He started giving me my missions

(table of contents)

To Forgive and Forget

To forgive and forget
Is an important aspect of my Christian life
Because the Lord Jesus Christ commands us to

To forgive is to heal the wounds
And to forget is to remove the scars
So there's no sign left, completely brand-new

When we forgive our neighbour
We earn his trust and respect
And you will become good friends

When we forgive our enemies
We stop the war and hostility
And you will attain lasting peace

(table of contents)

To Forgive and Forget

It must not be “to forgive and to forget”
Because they are separate entities
Giving us the choice of one or the other

But it must be “to forgive and forget”
Like there is a string connecting the two
So that choosing to forgive will lead us directly to forget

Let God be our Judge
For He is always true with His words
Once He forgives, He definitely forgets – your sins totally erased, period.

Forgiving and forgetting restores the bond broken
It issues forth a new life a new seed
A new plant and a new tree

(table of contents)

To Forgive and Forget

When we sin against God
Our bond with Him is broken
And we will be on our own, helplessly drifting

Once our faith and trust in the Lord Jesus Christ is established
And we repent of our sins
He will be happy to forgive us

Then He will restore
Our broken bond with the Father
And we will experience bliss anew

Before being a Christian, I was gobbling in sin and temptation
Until I told myself, “That’s enough! I need Jesus in my life”
From then on, I entered and walked the narrow path to becoming a fully-fledged born again Christian

(table of contents)

Game Trainers

Whenever I play video games on my laptop
May it be from Steam, EA, or Ubisoft
I make sure to use one of the three game trainers I have

My game trainers include
Fearless Cheat Evolution, Plitch and Wand
But these don’t work simultaneously for all the games I play

Every day, because I use game trainers
I don’t exceed five minutes of game time
Because it’s easier to live and fight with game trainers at hand

With game trainers, I can employ god-mode or infinite health and infinite ammo without reloading

(table of contents)

Game Trainers

I can enjoy more the games
Because I don’t die easily
Or from time to time

I use Fearless Cheat Evolution for
Resident Evil 4, Resident Evil Revelations,
and Tom Clancy’s Rainbow Six Vegas 2

I use Plitch for Alan Wake, Far Cry 3,
Fear 2: Project Origin, and Resident Evil 6
I use Wand for Far Cry 3, Resident Evil 5,
Resident Evil Revelations 2, Battlefield 4,
and Dead Space 3

The rest of the games I play include
Doom, Secret Agent, Wolfenstein 3D, Left
4 Dead 2, Monster Bash HD, Prehistorik
2, Rayman Legends, and Rayman Origins

(table of contents)

Game Trainers

Playing video games is not bad evil or sinful
If and when you only play when you're tired and weary of work, or if the Lord Jesus Christ allows you after a successful energy-draining mission

While writing this book, I didn't play even for a moment because I still have an unfinished mission

Another important lesson in using game trainers is the god-mode option
It is like a type of God because you will be invincible in the game, no enemy can defeat you

God is interested in everything we do
And He gives us the help we need, may it be invincibility or infinite weapon
Because He loves us very much

(table of contents)

Linux

Ubuntu is my favorite Linux distro
I start by downloading the latest release
At this time of writing, it’s ubuntu-24.04.3-desktop-amd64

Then I download balenaEtcher
Flash the ubuntu iso image into a usb flash drive that’s at least 16 gb
And we’re good to go!

I find a laptop in my room
That has an outdated Windows version
Connect the usb and start the laptop

Then we’ll be led to a page
Where we change the boot order in favor of the usb drive
Or if already chosen, we install Ubuntu

(table of contents)

Linux

Ubuntu has a lot of advantages than Windows
One is that it’s free
And another is that it’s easily customizable to your needs

I use Ubuntu mainly for playing video games
I install Gametop games by using Wine
And I also install and play Steam games

I also use the Ubuntu GParted app
To wipe out clean the usb drive and make it fresh as brand new

I also installed DOSBox Emulator
So that I can play Jill of the Jungle Parts 1, 2 and 3

(table of contents)

Linux

I also installed Virtual Machine Manager Virt-manager so that I can test other Linux distros on Ubuntu like Linux Mint, openSUSE and Fedora

I first learned about Linux back in college
When I tried to wipe out Windows on my laptop
And installed CentOS instead

From then on, I fell in love with Linux
More and more
So that I try every Linux distro out there on my virtual machine

The lesson here is that
The best things in life are free
Including God's Saving Grace in His Son Jesus Christ which we must respond to with great faith

(table of contents)

I Can Never Replace You

I can never replace You Lord
Because of how great Your love for me
You always healed my every illness

When I had seizures, epilepsy
You always let me sleep
So that I would never feel the pain

When there were rainbow colors
In my sight, waving like perpetually for a certain time, like graphs of sines and cosines

You come near me, beside me
You heal me with Your power, saving grace
And so then I was restored to my former state

(table of contents)

I Can Never Replace You

When I was experiencing
brokenheartedness
You come quickly and hold my heart
To evade the attacks from the enemy

You ease and soothe the pain
Like an irreparable broken bond
And so I will never let You go

You blindfoldingly covered my eyes
So that I won't fall for another girl again
Adding more to the misery my life has
been

Then You accompanied me away from
love
You gave a mission to do
Even if I'm still in sin

(table of contents)

I Can Never Replace You

The days were hard for me at that time
Because I was suffering from severe depression
With the risk of falling into bipolar disorder so high

But now I am a better man
A better soldier of Christ
Because You led me through high hell and water

I can never replace You Lord
When my life was in danger, You were the only One who stood up for me

And so I will give You my life
My love my everything
The poems I write and the songs I sing

(table of contents)

I Offer Everything to You, Lord

I offer everything to You, Lord
I offer up to You my life my love
The poems I recite and the songs I sing

I offer up to You my algebra
When I think of lines, numbers and symbols
I give them all up to You

I offer up to You my geometry
When I think of points, lines and shapes
I give them all up to You

I offer up to You my trigonometry
When I think of angles, triangles and identities
I give them all up to You

(table of contents)

I Offer Everything to You, Lord

I offer up to You my calculus
When I think of limits, derivatives and integrals
I give them all up to You

I offer up to You my general chemistry
When I think of chemicals, reactions and laboratory
I give them all up to You

I offer up to You my analytical chemistry
When I think of qualitative, quantitative and methodology
I give them all up to You

I offer up to You my organic chemistry
When I think of carbon bonding once, twice and three times
I give them all up to You

(table of contents)

I Offer Everything to You, Lord

I offer up to You my physical chemistry
When I think of thermodynamics,
quantum mechanics and kinetics
I give them all up to You

I offer up to You my inorganic chemistry
When I think of metals, minerals and
organometallic compounds
I give them all up to You

I offer up to You my biochemistry
When I think of proteins, nucleic acids,
carbohydrates and lipids
I give them all up to You

I offer up to You my physics
When I think of matter, energy and
motion
I give them all up to You

(table of contents)

Bride of Christ

I said to my Lord Jesus Christ,
"You are my Bridegroom", and He said
back to me, "You are my Bride"

You love me like no other
You treat me special in Your eyes
A love as precious as liquid crystal

You said to me, "I will love You forever"
A love so true will last a lifetime
For all eternity without limit without
bounds

I said to You, "I will treasure the bond
between me and You"
Because You looked to me first
Tired weary suffering, in pain, no comfort
deep within

(table of contents)

Bride of Christ

Then I looked to You
And I found a love so true
Like diamonds in golden crown diadems

I will never replace You
For only You understood my plight
condition situation hardship suffering
sorrow and pain

I will always love You without hesitation
reluctance relenting soft, with endless
motion and movement of the arms, with
warm and sunshineful embrace

I will always hold You close and dear
For I deserve n-times and unending
chances
Perpetual propagating generating untiring
unwearied to love You more and more
without end

(table of contents)

Bride of Christ

You touch my soul and heart spirit might
strength speed, the whole I am
And what I see in front of me is the
Beautiful “I AM”

Your beauty knows no bounds no limit
unbarricaded unbarriered ever flowing
moving reaching touching penetrating
permeating work of art

You will always be my One and Only
For You always make my heart sing glad
happy joyful blissful ever jumping and
shouting a music-filled and melodious
tone

You hold me so ever closely tight
Dancing to the beat of stars at night
For You are my bright shining brilliant
radiating white light with a golden robe of
righteousness

(table of contents)

The Man who Loves Jesus Christ So Much

If king David is called “a man after God’s own heart”
Then I will be called as “the man who loves the Lord Jesus Christ so much”

So much that the whole Universe will open its doors and windows followed by a massive and tremendous outpouring of blessings graces gifts resources

And the Earth will be blessed with so much glory honor power strength might speed and holiness

It is so good to love the Lord
With all your heart soul and mind strength and might
The Lord will bless thee for all eternity

(table of contents)

The Man who Loves Jesus Christ So Much

I love the Lord whom I call Christ
He’s always ready to rescue me
From the drought the famine earthquake
volcanic wrath hail raining

No asteroid comet or meteor
Can come near me
Because of the Lord’s love
And my love for the Lord

He will bless me all my life
And He will keep me from my enemies
Putting out hostilities establishing
everlasting friendship

I won’t hesitate when the Lord calls me
Hire and rent my services
For I am a soldier of the most High God
Breathing out fire devouring the nations

(table of contents)

The Man who Loves Jesus Christ So Much

The Lord deserves and is so much worthy
Of all our love praise thanks thanksgiving
gratitude and worship

He alone is fast strong mighty powerful
big and tall to save us from our sins
And bring us to life everlasting

I'm not called "the man who loves Jesus
Christ so much" for nothing
For this is not in vain

The Lord knows that my soul is for Him
I will give Him even my heart my mind
My all in all my everything
Because I love Him so

(table of contents)

I Was Never Allowed to Marry

Girls just pass me by
In my golden high school years
And college years of tragedy

I never had a girlfriend in high school
Then I met the so-called love of my life
Sitting beside me in the room

Right away I knew that we were meant to be
And that’s the reason why I chose chemistry
Over other courses

Chemistry was difficult, but she was sweet
She was the reason I kept on this field
Despite of the hardships, theory and laboratory

(table of contents)

I Was Never Allowed to Marry

Time came when we went our separate ways
She graduated from college
And I was left crying

I never knew that I would love again
I had infatuations and crushes after her
But none of them materialized

I then asked the Lord if I'm gonna have a wife
But He didn't answer
And I went on with my life

When I became a born again Christian
I was still living in sin
I constantly prayed to the Lord to forgive me

(table of contents)

I Was Never Allowed to Marry

I was wearing a dirty filthy robe
So I asked God to change it
Then all of a sudden He gave me a clean new white robe of righteousness

I never thought of girls anymore
For I was busy praising and pleasing the Lord
Each and every day, all day long

I have now become a soldier of Christ
For I offered to Him my life
In return for His commandments to follow

I am not thinking of girls anymore
For I am one with Christ and I love Him so
A beautiful story of my life and soul

(table of contents)

Infinity

When you rotate the number 8
90 degrees to the left or right
You will get the symbol infinity

8 equals 3 plus 5
3 is God (3 letters)
And 5 is human (5 letters)

Infinity can either be positive or negative
Positive infinity alludes to Heaven
While negative infinity to hell

There is no such thing as "live in the here and now"
For if we do so
How can we prepare for and live in Eternity?

(table of contents)

Infinity

The number 8 reminds us
That humans are for God
Because he is created in His likeness and image

When we become a Christian
By having faith in the Lord Jesus Christ
Then the Lord opens the gate of Heaven for us

If we only live in the here and now
We will be like floating and drifting
In the sea of cartesian coordinate plane

This cartesian coordinate plane
Excluding the negative and positive infinity
Is the life we live on Earth

(table of contents)

Infinity

If we live as a good faithful Christian in the Lord
We are heading towards positive infinity
And if we die, we will make it to Heaven

But if we live a double life
Backslidden and in sin
We will run the risk of getting to hell

The Earth is but a temporary place
And when on Earth
We are either Heaven-bound or hell-bound

So make the most out of life
Live in great faith in the Lord Jesus Christ
And love our neighbors, doing good acts

(table of contents)

I Wept for People in Hell

I believe in the Heaven and hell testimonies
Written by different Christian authors
Because they come from the Lord Jesus Christ

The Lord Jesus showed Heaven and hell
To certain Christians
So that they can share it to others to increase their faith and trust in Him
So that they can go to Heaven and not in hell

The authors of Heaven and hell testimonies are as follow:
Juan Hugo, Mary K. Baxter, Kenneth Hagin
Michael Yeager, Curtis Kelley, Ron Regan
Carmelo Brenes, Mario Martinez, Michael Thomas Sambo

(table of contents)

I Wept for People in Hell

Choo Thomas, Bill Wiese, Victoria Nehale
Bernarda Fernandez, Angelica Zambrano, 7 Columbian Youths
Ricardo Cid, Buddhist Monk, Queen E. Dixon

Emmanuel Agyarko, Pastor Hyun Sook Na, Fredy Ruano
Iyah Melea, Nigerian Soldier, Marvin Ford
Pastor Brani Duyon, Theo Nez, Myanmarese Christian

Lucius Oge, Jim Woodford, Tricia Deavenport
Dr. Maurice S. Rawlings, Reverend Park, Yong Gyu, and many more

The Lord Jesus Christ is returning soon
All the words written in the Bible are true
Heaven and hell exist!

(table of contents)

I Wept for People in Hell

The Lord Jesus Christ is a kind, loving and good God
He doesn't want us to go to hell
But He wants us to spend eternity with Him in Heaven

While there is still time to repent, grab this opportunity
Don't wait for tomorrow or the near or far future
For tomorrow may not come in our favor, or may not come at all

Focus your minds and hearts on the Lord and His word
Forgive all those who have hurt and wronged you
And never hold grudge against anyone

Never indulge yourself into pornography
Or any other sexual sins, such as fornication and adultery

(table of contents)

I Wept for People in Hell

Above all, always pray to the Lord and obey what He has to tell you
He wants us to love Him, so that this love will break the bonds and chains of sin in our lives

(table of contents)

Greater than the Earth

Rocks and planets shoot forth out of nature’s order
And the Earth is filled with so much love
As the heavens open to change from time to time

The name is oddly remembered
Present’s fullness covers its shoulders
Including the oceans above and under

It blends with bodies in the heavenly realm
History utters its patterns
Its produce resurface and create its parts

The orderly man touches the essential
And his discernment breaks through the heavens
As the hard matter is respected for all ages

(table of contents)

Greater than the Earth

The massive giants are found in certain places
As love extends its generous dealing
The time in space is readily perfected

Closeness merges the differing gems
As ice crystals and its past draw nigh
The heavy man shares his accountability

The status of angels are ripe for the age
Life just presents its neverending race
Evolution has no place in the life of man

The lightning strikes at even distances
And the lion roars in line unbecoming
As waterfalls drain their last drop

(table of contents)

Greater than the Earth

The pressure increases as mountains surmount
The price paid by the blood on the cross
Negative events must have transpired

Thinking starts with our own works
Far and wide are the actions rehearsed
The Earth is quickly changing from within

The rock that forms the planet's will
Is the same rock that says, "Peace, be still"
And everything around just vanishes

To seek and find a better life
Is not man's purpose in the planet's above
But to trust and have faith in Jesus Christ

(table of contents)

Waiting Patiently

I wake up every morning at six
And I wait patiently for the Lord
To come to my ears

He dictates to me words of wisdom
In the form of poems and songs
Which I write with my hand

I write a poem at six
Followed by nine then twelve noon
Then three in the afternoon

Then six in the evening
Then finally at nine at night
In all of these hours I wait patiently for the Lord

(table of contents)

Waiting Patiently

The Lord trained and honed my skills
I never come before
I always wait patiently

Whenever I get tired and weary
He allows me to listen to music
Of which love songs are much preferred

He wants to make it easy for me
Love still dominates
Even when the tasks at hand are hard

He trained me to have ears for grammar
So that I can easily write poems and songs
In no time at all

(table of contents)

Waiting Patiently

That’s why I am able to write
Ten beautiful original Christian poems in a day
For to reach the 144 is a daunting work

He always guides me
So that I will not make mistakes
The work of the Lord is perfect

I always wait even in listening to His word
For if I don’t hear a thing
That means He wants me to develop my patience

I am writing this book
Because I love the Lord
And I want to please Him by obeying

(table of contents)

Listen to the Prophets

The prophet prophesies
Future events on Earth
According to God’s divine holy Will

He always follows God
In places He will lead him
To have visions

His mission is to tell the people
About God’s plans for them
For He loves them so

He fasts and prays every so often
So that the body and soul is dominated
By the spirit, having great power

(table of contents)

Listen to the Prophets

The prophet lacks nothing
Because God provides him everything
So that He doesn’t wander wanting

The work of the prophet
Is a very huge blessing from God
Because he will lead the people out of sin

He prophesies day and night
Inside his room
Before he shares God’s Will to the people

His office is a sacred duty
He is anointed by God
With the Holy Spirit

(table of contents)

Listen to the Prophets

In modern times He opens his blog
And writes what he has seen and heard
To be shared with all people on Earth

His thriving place is the social media and blogsites
Facebook, X, and YouTube
WordPress, Wix, and Medium

He blogs and posts from time to time
So that the whole Earth is updated
With God’s plans and wisdom

So let us listen to the prophets
For their feet and hands carry
The good living Gospel of the Lord Jesus Christ

(table of contents)

You Are My Strength, Lord

I love playing chess a lot
Because there I outpour
My might, strength and power

Whether I play the black or white
I succumb to the growing forces
And chaos runs amuck

My favorite opening is d4
Because the queen is the strongest
So I will use her in my favor

Then I move my knight out
To participate in the battle
Followed by the bishop and rook

(table of contents)

You Are My Strength, Lord

Then finally, I will release the queen
Put her to work
In the tension just increasing

But apart from chess, the Lord is different
He is the strongest there is
Like chess inverted

And I am His queen, the Bride of Christ
I derive my power from Him
While writing poems and doing other things

The Lord is my strength
Wherever I go, I call upon Him
To guide me to safety

(table of contents)

You Are My Strength, Lord

He is my refuge and shelter
My power my might my all in all
He defends me from all hostilities

He is my great tower and wall
He carries me with His mighty right hand
Whenever I drift in the sea of
hopelessness

He takes care of me when I am weak
Feeble and frailty has no power over me
I will continue in His saving grace

He is my powerful King
He will defeat all of His enemies
When the right time comes

(table of contents)

Prioritizing You

I put You first, Lord
Always and each and every day
I prioritize You

For all eternity and infinity
I will prioritize You
For You are special to me

My heart and soul echoes their love for You
And never was a time
That I didn’t prioritize You

You are my King and my Lord
The Rock of my salvation
And I honor and worship You

(table of contents)

Prioritizing You

I praise and thank You
I pray every morning, noon and night
And I give You all the glory

I start my day with You in my mind
My heart and my soul
My speech and my actions

I never fail to repent of my sins
For I know that it is a new beginning
Of the life to come between You and me

I always put my faith and trust in You
For faithful and true You ever remain
I am never disappointed

(table of contents)

Prioritizing You

I put You above everything else
My life my work my dwelling place
I am never discouraged

I never leave any poor behind
Because that's the Word You said in Matthew 25
By helping the needy I am able to love You

I will always treasure the bond
Between You and me Lord
Because that is the right thing to do

And when the Heavens open
And You descend from the clouds
I will still always prioritize You

(table of contents)

Saved from the Fire

Hell is a nasty place, full of disgrace
An evil dwelling place
That is so bad for you and me

Hell is a place that you don’t want to be
Where bodies are heavily burned
And ashes do they become

It is a place for the wicked followers of satan
Who deceived most of our brothers and sisters
Who are all humans

In hell, you will inherit a body of death
Because you died in your sins
There is no escaping, no letting go

(table of contents)

Saved from the Fire

The body of death is tortured
Persecuted, experiencing excruciating pain
That no Earthly word can describe

People in hell don’t experience love
Sympathy or mercy
They just swim in a sea full of fire

Hell is a place for nonbelievers
Those who died in their sins
The backslidden and those with double lives

As Christians, we are commanded by the Lord Jesus
To always repent of our sins
So that we will not perish

(table of contents)

Saved from the Fire

This place of perishing is called hell
Where satan and his demons
Will torture you forever

A friend of mine told me
That he had a vision of hell
And he told me this:

That hell is like the periodic table of elements
One is tortured from one cauldron to another
Where there are also chemicals of increasing heat and intensity

So if you are a Christian, backslidden or with double life
Or a nonbeliever in Jesus Christ
Set your hearts straight now and repent to our Lord Jesus Christ

(table of contents)

You Are My Sun

You are my Sun, Lord Jesus Christ
Shining brightly wherever I go
Burning intensely the will of my soul

You give me life to sprout anew
After I was held in darkness
You give me a much needed light

You save me from the forces
That drive me insane and mad
Because You love me

You teach me the ways of Eternity
By making the hard parts easy
I surrender to Your will

(table of contents)

You Are My Sun

Your cause is to radiate beams of wisdom
You will never let me go
Because You want me to learn Your ways

You enlighten me with a love so true
I never lack because of You
I am outstanding

To forgive my sins time and again
And You keep me safe
From darkness neverending

You bestow me with a spectrum of Your touch
I will never ask for more
Because You complete me

(table of contents)

You Are My Sun

I can never outrun You
For Your rays are
Ever glowing before me

The sun is shining bright
Every day of our lives
So we must kneel and pray

For if you only pray
During rainfall and not in sunshine
Then what good will that do?

So let us love the Lord always
Because He is the Sun of our lives
In the past, present, future and forever

(table of contents)

Jesus Our Saviour Helping Us All

Joshua Munguti is a prophet of the Most High God
He lives in Kenya
And shares about the Lord Jesus Christ with other people

He is the author of the blogsite Christiantruthcenter.com
Where he writes Bible prophecies and Bible study coming from the Lord Jesus Christ

I learned about his blogsite five years ago
When I was still living in sin
And needing the forgiveness of the Lord

Brother Joshua helped me to recover
From my severe depression
And now I'm totally healed

(table of contents)

Jesus Our Saviour Helping Us All

I am still reading his blogs
Up to the present
For I treasure the love Jesus Christ has for me

He teaches about the Kingdom of Heaven
About the Lord Jesus Christ
And about the eternal damnation in hell

His blogs are very helpful to me
My source of strength and healing in the Lord
Through his blog, I was totally healed of all illness and blessed

In his blogs, he talked about God's Sovereignty
The love Jesus have for all his servants and for His Bride
And the future events that will come

(table of contents)

Jesus Our Saviour Helping Us All

He talked about the Church, Saving Grace through faith
The Rapture, the Great Tribulation, the Battle of Armageddon, the Book of Revelation, and many more

He discussed about how we ought to live as true born again Christians before the eyes of the Lord

He maintains his blogsite until now
Especially for me who is still not finished reading his posts

May the God the Father, the Lord Jesus Christ, and the Holy Spirit bless you always, Joshua, for you have done a good and beautiful thing in my life through your blogs

(table of contents)

Your Career Can't Save You – Only Jesus Can

When I first entered college
I wasn't sure if chemistry was the right course for me
Until I met her

I was supposed to transfer to ECE
But because of her constantly in my mind
I never left chem

I thought I can juggle those two
The love of my love and the course
But I was wrong

After she left me
I was all alone
And thrown into confusion

(table of contents)

Your Career Can't Save You – Only Jesus Can

I thought, "What's the point of continuing in chemistry, when there is no more good reason to do so, for the love of my life is better and much more appreciated than lifeless chemicals in the lab?"

So after graduating from chem
I looked for another course to start my life anew
Because I could never find work in chemistry
Which had been a "totally broken beautiful bond" for me

I found computer science
And that's the reason why I fell in love with math-sci-comp
First science with math, then comp

(table of contents)

Your Career Can't Save You – Only Jesus Can

I travelled far and wide, here and there
Trying to find a lasting work
But no career ever found me right

Until the Lord called upon me
And put me on a mission
To love Him and share His love for others

I finally found the Lord, the true love of my life
He is my personal God and Saviour
And only He can help me from all the trouble

At present, I am dedicating and devoting my life to the Lord
Because He promises me to succeed with His help
For He alone can solve all my problems

(table of contents)

Your Career Can't Save You – Only Jesus Can

"Lord Jesus Christ, thank You for being my Saviour"
"I will always love You with all my heart, mind, soul, and strength"
"For You will never fail me. Amen."

(table of contents)

You Are My Rest, Lord

Whenever I get tired and weary writing
this book
I pause for a moment
And think of other things

I pet my dog on the head
As I am preparing her food
And water and milk on the container

I drink water to refresh my soul
I go to YouTube or songs in my cellphone
And I listen to them, soothingly

I do some household chores
I sweep and mop the floor
And I feed the cats and dogs

(table of contents)

You Are My Rest, Lord

I also go out of the house
Breathe some fresh air
And view the beautiful sceneries

I also use my spiritual warfare
As a form of relaxation
To replenish the lost energy, draining

First, I kneel next to my bed and pray to God three times, morning, noon and night
Then I listen to Spotify Christian worship songs like those of Hillsong Worship and Citipointe Worship

I read the King James Bible online
Both the New and the Old Testament
To refresh my soul and restore my spirit

(table of contents)

You Are My Rest, Lord

Then I read Joshua Munguti's Christiantruthcenter
So that I can learn more about God who gives me rest

Next I read Heaven and hell testimonies
At the time of this writing, I am reading Mary K. Baxter's testimony on Wattpad
After being finished with the testimonies of Iyah Melea and Angelica Zambrano

Then I open my pdf on "Hell Testimonies" by Mike Peralta
After which I proceed to reading the books written by Watchman Nee and Witness Lee

After which I read the Reformation Heritage KJV Study Bible for both Old and New Testaments
Finally I watch my favorite YouTube Christian channels

(table of contents)

Why Science Can't Explain Everything

MATH stands for "My All To Him"
With Him
Referring to the Lord Jesus Christ

SCIENCE stands for "Salvation Can Increase Everyone's Natural Collective Enlightenment"
Which is the salvation that comes from Jesus Christ

COMPUTER stands for "Christ Offers Many Possibilities Using The Everlasting Redemption"
Redemption here means the salvation that comes from the Lord Jesus Christ

Once you have given your all to Christ
He will work great wonders miracles and signs in your life

(table of contents)

He wants us to take this opportunity
To seek Him as our personal God and Saviour
Because He loves us very much

Once we accept the salvation from Jesus
We can now work to increase our knowledge in Him because He wants us to increase our wisdom about life, the whole planet, and the universe

Once we are redeemed in the Lord Jesus Christ
He will offer us many things that will open the possibility of everlasting life

There will be no more death and sickness
And we are looking to exploring the Earth more
And outside into space like time and space travel

(table of contents)

Why Science Can’t Explain Everything

The problem why we don’t achieve much in math science and computer is because we put our faith too much on these fields

By doing so, we neglect our Creator who created math sci comp to improve our lives and make it better

There is also something wrong with the scientific method, which is constantly changed to be able to explain nature and space and solve our problems

Remember, if something is constantly changing, how can it explain well that which is immutable?
Therefore, only God can do all things and nothing is impossible with Him

(table of contents)

To Prepare for Your Return

The Rapture is coming very soon
And the true born again Christians
Have time and again to prepare for it

They are preparing at this moment
For the Rapture in the twinkling of an eye
And they will be with the Lord forever

The Rapture is not a theory or concept
It is not a scientific phenomena
That can be explained by science

Nor is it a problem to be solved
It is outside the realm of science
It is so much higher and greater than it

(table of contents)

To Prepare for Your Return

The Rapture can only be appreciated
By the true born again Christians
Because it is absolutely a matter of
personal faith

Our present time today is the last chance
That we can repent of all our sins
And wash them with the blood of Christ

The Rapture is an important facet of the
Christian faith
Although theology knows it
It still has a place, more importantly, in
the personal loving relationship of the
believer with Jesus Christ

It is easier to give everything up to the
Lord
Including our faith, trust, hope and love
Than being left behind in the Great
Tribulation

(table of contents)

To Prepare for Your Return

Because the Great Tribulation
Is mentioned in the Book of Revelation
And it is a very horrendous horrific and
terrible place and time just like hell

The Lord Jesus Christ
Has reminded time and again
To prepare for the Rapture

But sometimes we don’t believe
And just take things about faith for
granted
And this is why we will be left behind

The Rapture is not an alien theory
But an event that will show
How much the Lord loves His people

(table of contents)

God Loves a Cheerful Giver

I saw a poor by the wayside
He is dirty and filthy
Begging for alms

I saw me standing next to him
Grabbing some coins out of my pocket
Finally letting out

He looked to me and said,
“Sir, do you have anything food or money
Because I am hungry?”

I said, “Okay, I will give you this much
So that you can ease the pain
Of being impoverished

(table of contents)

God Loves a Cheerful Giver

I love the poor so much
Because they are God’s gift to us
According to Matthew 25

I help the poor not to be popular
But because I want to love the Lord
For He was hungry and thirsty

Giving to the poor is more important
Than keeping to ourselves
All the food and drinks in the world

The poor symbolizes Jesus Christ
It is a type of Christ
That brings all our good deeds to light

(table of contents)

God Loves a Cheerful Giver

Giving to the poor is a huge blessing
That heals all our wounds
And vanishes our sickness

There will always be a poor
So many are the chances
For us to help them

For if you give generously
And not stingily
Then the Father will reward you abundantly

So take your time to study this cause
For it’s worth it to help and love the Lord
In the form of the poor

(table of contents)

Brothers And Sisters In Christ

Brothers And Sisters In Christ
Is a basic precept
To show brotherly and sisterly love to others

It is a very fundamental way of thinking
Because it encompasses everything
Including the Heavens above

It teaches us to share our resources
To our neighbours
And to love them as Christ has loved us

It is the heart and soul of a true believer
Because it expresses his or her love
For all peoples in the world

(table of contents)

Brothers And Sisters In Christ

It is great in our eyes
And in God’s eyes
And it never expires

The moment we become true born again
We experience the love of God
Which we share with our brothers and sisters in Christ

For the best things in life are invisible
Like the air we breathe and the water we drink
Like the love of God in Jesus Christ

We are fellowsoldiers in the Lord Jesus Christ
We help each other in times of battle
To defeat the enemy and win the war

(table of contents)

Brothers And Sisters In Christ

Just like in chess
Where the pieces fight with camaraderie
They help forge a solid teamwork

The Lord helps us to understand
That Heaven is a place for brotherly and sisterly love
No pain, no suffering, no heartbreak

We are to enjoy God’s gifts and blessings to the fullest
We are to enjoy it with other believers
Those who were saved or made it in the Rapture

It is a solid Biblical truth
To love and be loved in great harmony
After the new heaven and new earth

(table of contents)

Saving Faith

When I had severe depression
Those were the worse days of my life
I just felt so empty and cold

Nothing can soothe or make my pain go away
The suffering is too great
I was on the verge of becoming forgotten

But oblivion didn’t have his way
And I was able to recover
By not taking chances after all

I finally discovered
That it was the Lord Jesus Christ
Who was helping me all along

(table of contents)

Saving Faith

Though I was alone in this sickness
The Lord Jesus Christ was with me
Every step of the way

I never complained or grumbled
Because it was the Lord helping
I feel calm and relaxed

Then the Lord showed me
What will happen
To Zion and the world

He put me on a mission
A mission that’s so dangerous
The whole world’s in great danger of total annihilation

(table of contents)

Saving Faith

The Lord was always with me
During my times of trial and tribulation
And I carried His cross faithfully

I denied myself
Of all material things
Including course success and high-paying profession

Time and again I attempted
At a successful crack at chemboards
But everything seemed to dissipate, out of hand

May saving faith is only You Lord
You loved me with a love so true
So I return the favor now and forever

(table of contents)

Why My Life Just Feels Empty

I showed you love
But you didn’t show it back to me
My life is just so empty

I waited for the moon
And prepared for the stars
My life is lonely

I travelled the sun
From time to time
And there you are smiling

I wished I had your love
For my soul is thirsty
And my heart is dying

(table of contents)

Why My Life Just Feels Empty

I couldn’t think the thoughts
Say the words, do the actions
With you far away from me

I talked the talk
And walked the walk
But everything is futile

Until I gave my all
To the Lord Jesus Christ
And suddenly it opened my eyes

I was no longer feeling empty
Sad, sorrowful, remorsed or lonely
For I offered my life to the Lord

(table of contents)

Why My Life Just Feels Empty

The Lord is the haven of all good things
The source of our strength, power and might
The ever changing rebuke and everlasting love

He is my full battle armor
And the freedom I deserve
Which is sweeter than chocolates and candies

He gives me the staff of His rod
To drive away my enemies
Afterwhich to bring them back to God

My life feels non-empty now
I dedicate and devote it to the Lord
Who is my Bridegroom forevermore

(table of contents)

Sleep No More

While writing this poetry book
The Lord lets me sleep at 9 pm
And He wakes me up 5 in the morning

Then my work begins
From 6 am to 12 noon
I write the poems He dictates

Then from 1 pm to 6 pm
I type the poems I have written
In my laptop

I do not rest until
I have written 10 poems in succession
So that my promise is fulfilled

(table of contents)

Sleep No More

I promised the Lord
That I will be diligent enough
To finish these poems from start to end

Never will I rest
For the Lord gives me strength
And the courage to move on

The Lord never lets go of me
Until I am through and finished
With the poems I write

This is a way to deny the flesh
Carry my cross and follow the Lord
Which He has commanded

(table of contents)

Sleep No More

If it be possible, I won't sleep at all
In order to finish the writing
But the Lord wants me to rest

He wants me to believe
That I can fight a good fight
Finish the race and keep the faith

For writing this book is not an easy feat
So the Lord lets me rest
And get some sleep

I will not do a reckless thing as such
For I also need to sleep and rest
Before loving these poems so much

(table of contents)

All Sickness Is Not from God

When I was in epilepsy
Brokenheartedness
Or severe depression

I talked to God
And asked Him,
“When will this end?”

He answered me
And said, “All sickness is not from me”
“But I allow it to show you my sovereignty”

God is sovereign above all things
On Heaven or on Earth
But hell is excluded

(table of contents)

All Sickness Is Not from God

For hell is the absence of God
No hope, no love, no water
Just fire, pain, and torture forever

God told me
That all sicknesses come
From the kingdom of darkness, land of the enemy

So that we shouldn't blame God
When we get sick, or meet deaths, or accidents
But ask for His power of healing in our lives

When I had epilepsy
Brokenheartedness
Or severe depression

(table of contents)

All Sickness Is Not from God

I never blamed or questioned God
I just endured the pain
And I asked for His healing

Then one day, all of my sicknesses vanished
Like no trace or any amount left
I was completely healed, “Hallelujah, Hosanna in the Highest!!”

For I was blind
Blinded by epilepsy, brokenheartedness, and severe depression
But now I see

The Lord God opened
And continually opens my eyes
To the things that really matter most

(table of contents)

Very Easy

Doing this book is very easy
Because the Lord God is with me
Inside me and within me

I spend the whole day writing and typing poems
Making up to twenty
Before I rest, sleep or do other things

Whenever I get tired, I relax and clear my mind
Then the Lord pours out new ideas again
On my mind

This work is totally draining
But because of the love of God
It becomes super easy

(table of contents)

Very Easy

I spend the whole morning
Writing poems on my cellphone
One poem at a time, after another

Then I use the whole afternoon
To type what I have written
In my laptop

I was already through
With the title page, table of contents, and cover page

And now and every day
I am just waiting for the Lord
To dictate each and every word

(table of contents)

Very Easy

Without the Lord and His help
This book is not possible
All of my ideas would be in vain and at nought

So I pray to the Lord every day
To help me finish the poems
And publish the book with zero price

For this is the work of the Lord
Not mine
And it will definitely succeed

And so another day passed by again
With me succeeding
In doing the Lord’s assignment

(table of contents)

The Blindness of Science

Science was once beautiful
Including math and computer
During the days in the Garden of Eden

Math-sci-comp is not a subject
But worlds in the universe
And planets in the heavenly realm

God, saints and angels often visit them
And learn new beautiful things
About eternal life and love

But because of the Fall
Man and woman, Adam and Eve
Was banished, without knowing math-sci-comp

(table of contents)

The Blindness of Science

They started from scratch
They didn’t have the life
We are enjoying right now

For after the Fall
Math-sci-comp was far away
From human beings at a certain time

Then came 21st century
Then science bloomed and received her blessing
To allow humans to just enjoy the things

That science brings, and never
Go back to the start of the age
Where humans have nothing but the earth

(table of contents)

The Blindness of Science

But scientists became greedy and idolatrous
They want science to serve them and make money
They worshipped it like a God instead of the true God

This is the reason why many things expire on Earth
They have a due date, a “best before” mark
Because nothing is permanent in this world

People of all nations fight
Because of discoveries in math-sci-comp
Which they turn into weapons, weaponized

(table of contents)

The Blindness of Science

Then the story goes on until now
Humans on Earth love science more than God
So that they’re left with nothing, but a scientific method that’s constantly changing

(table of contents)

Faithful And True He Ever Remains

Father God is faithful and true
He ever remains so and is immutable
In His love and promises to us

His Word is true
In the Holy Scriptures
In the Bible

There are three: His Word
The Holy Scriptures
And the Holy Bible

As much as there is three
In the human being:
Body, soul and spirit

(table of contents)

Faithful And True He Ever Remains

The differences are:
The Bible is a book
That is a collection of 66 books

The Holy Scriptures is the
Sacred writing and content
In the Bible

While the Word
Is the Word of God
Breathed by Him, is divine and living

In the Bible
There are many names
Given to the Lord Jesus Christ

(table of contents)

Faithful And True He Ever Remains

Such as: Emmanuel (God with Us)
Wonderful Counsellor, Mighty God
Eternal Father, Prince of Peace, Lion of
Judah, and many others

He is also called FATHER meaning
"Faithful And True He Ever Remains"
As can be found in Revelation 19:11

He goes by many names
And this is a proof of His immense power
and authority, God's Sovereignty

He will always rule over His creation
And love them with a love so true
Nothing can snatch them out of His hand

(table of contents)

KJV

KJV is my Bible of choice
It stands for “King James Version”
It’s my favorite among many translations

It also stands for “King Jesus’ Victory”
For it is the most beautiful Bible out there
So much blessed by the Lord Jesus Christ

It is His Bible
He was the one who wrote it
Using His holy servants

KJV is all truth and no mistake
It is free from all errors and disgrace
And no one can interpret it except the
Holy Spirit speaking to you

(table of contents)

KJV

I love KJV very much
Because it is the source of my strength and blessing
My shield in times of trouble

It is my love from the bottom of my heart
It is my gladness, happiness, joy and bliss
I always want to read it

And when times get rough and tough
I don’t hesitate to open it
For God is the comfort for my soul

I love KJV more than NASB
More than NKJV
Because my heart pours out for it

(table of contents)

KJV

If there is one thing we are required to do
It is to read our Bibles every day
Because BIBLE stands for “Basic
Information Before Leaving Earth”

Leaving Earth is the Rapture
Or when we die
After which we either go to Heaven or
hell

There’s no purgatory, no in-between
Only Heaven or hell
So you gotta choose wisely

KJV is my all in all
By reading it and obeying His commands
I can show that I love the Lord

(table of contents)

Fasting

While writing this book
The Lord told me to eat only a few
Like three tablespoons of rice

Along with three tablespoons of viand
And water and juice
During snack time

He doesn’t want me to eat
Just to drink water
In the morning and in the afternoon

All these He wants me to do
To subdue my body, spirit and soul
With the Spirit of the Lord

(table of contents)

Fasting

So that He can teach me all things to write
He speaks to my ears
And I write His every dictation with my hand

He’s always right on time
For in writing this book
I was able to complete ten poems a day

He wants me to rest from time to time
And in my counting
I can finish this book in three weeks’ time

Because He wants me to share
This book with others
Before the Rapture happens

(table of contents)

Fasting

The Lord loves me so
He wants me to fast
But I will not go hungry

It is the Lord who guides
Because He loves me so much
More than the love of math-sci-comp

By fasting, He can show me many things
Like the poems I write and the songs I sing
Makes me wanna jump to the finish

Writing this book is no easy feat
I have to have discipline
So that the Lord can guide me all the way through

(table of contents)

You Are My Teacher, Lord

You are my Teacher, Lord
You teach me everything I know
And pour the vial of wisdom on my head

You teach me about Heaven and hell
How to get to Heaven
And how to avoid hell

He holds me in my right hand
And leads me to the path
Of Garden Cities

You have shown me the way
Time and again
For You are the Way, the Truth and the Life

(table of contents)

You Are My Teacher, Lord

You want me to get to Heaven
So that You sent the Holy Spirit
To be our Helper in wisdom and truth

You teach me the ways of love
To love God above more than anything
And to love our neighbours as Jesus
Christ has loved us

You bring us gifts of wisdom, knowledge
and intelligence
So that we may survive the tides of life
And vanquish evil from all eternity

You make sure that we learn a lot
Get good grades in school
And reap awards and honors

(table of contents)

You Are My Teacher, Lord

This is what I did back in high school
You have guided me always to pull through
So that writing this book would be an easy feat for me

You have guided me through the years
You have never let me go
For You have given me love time and again

I am ever grateful for Your love
You teach me about the Earth
And the planets above

Only You can understand the universe
You grasp it in Your hands
And gives it graces that it deserves

(table of contents)

Repeatedly

The Lord utters His every word
repeatedly
While I was writing this book
So that I can finish the job succeedingly

He speaks to my ears
Over and over again
So I won’t forget the words He releases

He wants me to write down
Word per word
All of His dictations

He wants me to have an ear for grammar
So I can easily make use of idioms
And poetic rhyme and meter

(table of contents)

Repeatedly

I always use three or more lines in this poem
In honor of the Lord Jesus Christ
Who did the hard parts

I also used twelve stanzas for every poem
In honor of the Holy Trinity
Who bears the God number twelve

In writing these poems, perfection is a must
So that people will believe
Including the unbelievers and those still in sin

This book is intended for all
May it be Jews, Christians and Muslims
To turn our hearts to the Lord

(table of contents)

Repeatedly

After writing this book
I made sure to publish it for free
On all self publishing online sites and poetry sites

If you are wondering
Why sometimes my verb tenses are different
It is because of “Changing Tenses” or “Tense Mutability” or “Travelling Time Machine Tense”

It’s like a time machine or time travel
Where you go instantly from the past to the present to the future
And back again

It is a good thing the Lord told me this
Because this kind of thing
Is beautiful in the sight of the Lord

(table of contents)

Endless Energy

I feel like I’m superman
While writing these poems
I’m full of energy, fast and strong

I conquer the universe
And its worlds
I don’t stop there

I write so fast
That the time is slow
And I conquer time as well

I am perfect in every way
Because the Lord God is with me
And within me

(table of contents)

Endless Energy

I love writing as well
Especially in the English language
My joy is overflowing

I came to understand
That idioms and science
Are good things

Only when put into proper use
Will they be functioning well
Because of their excellence

Even though I fast
I don’t seem to lose energy
I’m here to write for the Lord

(table of contents)

Endless Energy

I always keep it my mission
To love the Lord in soul and mind
And also love my neighbour

That is why I don’t lose energy
It’s like a lifeline
To all eternity

I always make it a point
To be humble
I always wait for the Lord

It’s a good thing
To always follow our God
Who is with so much graces and blessings for us

(table of contents)

Volumes

The Lord is my still small voice
He speaks to my ears
And I listen to Him

He is my good Shepherd
And I am His sheep
I listen only to His voice

I always hear His voice
When I'm alone
With no distractions

I always follow His commands
And He treats me well
Full of love deep within

(table of contents)

Volumes

He makes sure
That I graze on green pasture
So that I will be healthy and strong

He embraces me
With all the love in the world
I never grow wanting

There is always light in Him
And His voice is like thunder
And His eyes like lightning

I would never want to
Be without the Lord
For He is the source of my strength and power

(table of contents)

Volumes

Every hour
I dedicate and devote to Him
Heartfelt songs and prayers

I love Him with a love so true
So that other sheeps who want to enter the fold
Will be welcomed by Him

I watched the Lord
And He smiled to me
He is only the beginning

A love so true I'll always share
With the Lord and His sheepfold
And forever we'll be happy in the Lord

(table of contents)

I Surrender All to You, Lord

I am a soldier of the most High God
A child of Eternity
And a warrior for the Lord

I fight the battles that win the cause
I will not hesitate to follow Your orders
In the bright shining light of the day

I drive my enemies away
But pray to the Lord God
To bring them back home safely

I don’t fight my human enemies
I only fight satan and his cohorts
The spirit in people that do us wrong

(table of contents)

I Surrender All to You, Lord

satan is nothing but dust
A swirl in the wind
A lost cause in the past

he was already defeated
By our Lord Jesus Christ
Who reigns Supreme over him

he can’t fool the true Christians
Who always pray and fast
In the way of Spiritual Warfare

Christians succeed against s.
Because they love the Lord so much
And fight for His cause

(table of contents)

I Surrender All to You, Lord

s. is nothing but a dot
a point after s
In the land of severe suffering and pain

He is always hellbound
The lake of fire that's all around
To love the Lord isn't His desire

he wanted to be like the Most High God
Because he envies Him
For all the glorious creation on Earth and in Heaven

he can't hold back his pride
he's full of negativities
And no positivities, no not one

(table of contents)

The Right Way

Going up and to the right is the Right Way
Like in the Cartesian coordinate plane
Where up is positive y and to the right is positive x

Positive y leads us to Heaven
And positive x to positive infinity, Eternity
They are the only true directions

Heaven is full of Blessings
While Eternity is full of Possibilities
For nothing is impossible with God

Heaven and Eternity go hand in hand
The love of the saints and angels
Are reflected in the love of God

(table of contents)

The Right Way

Heaven is a state and place of bliss
While Eternity is where are the tools we need
Like mathematics, science, technology and engineering

The Lord spoke to me
About Heaven and Eternity
And how to get there

He said, “You must repent of your sins”
“Be washed with His blood on the Cross”
“And love and forgive your neighbours as yourselves”

The Lord showed me many beautiful things
In Heaven and Eternity
That are hard to describe and utter

(table of contents)

The Right Way

He showed me the Will of God
How God wants us to be saved in Heaven
And not perish in hell

He wants me to go tell the people about this
So that many will come to Him
Repent of their sins and be blessed

He wants me to show the world
That He is a God of Love
And not of war and destruction

Only s. delights in our suffering, pain and torment
And he wants to plunge us all in hell
And to suffer for all negative infinity

(table of contents)

The Humble Servant

The humble servant always follows
The Word of the Lord
Without reservations

He doesn’t want us to hesitate
Nor to reject it
It is the Lord’s Blessing

He rules and reigns over our lives
For He is a Sovereign God
Mighty and strong, full of compassion

He doesn’t want us to stay in the world
But go into Heaven
Where we will always be with Him

(table of contents)

The Humble Servant

He wants us to be humble always
So that He can bless our soul
And uplift our spirit

A downward spiralling means destruction
But to those who humble themselves
amidst the hardships that sin can bring
He is ready to help us with His mighty
right hand

He is the Humble Servant
Who followed God through to the Cross
Eventually succeeding in saving us
sinners

He wants us to be safe with Him
In his loving and caring arms
For we are made in His image and
likeness

(table of contents)

The Humble Servant

From the start, God loved man so much
He is after God's own Will and Heart
And the bond is not broken between them

Even now, God loves us so
So that He sent Jesus on Earth
To restore man's broken bond

He loves us always with a love so true
So that we will never perish in hell
And attain life Everlasting in Heaven

For Heaven is a very Beautiful Place
Everything is Alive, capitalized
Existing and living forever, with grace unending

(table of contents)

Your Every Word I Eat

Your Word is delicious
Like honey in my tongue
Like chocolate in my mouth

I eat it every day
Whenever I read the Bible
And study Your Word

I never get tired of reading
Both Testaments, from New to Old
Because I love the Lord

I start from the New
Because it leads me straight to Jesus
From Matthew to Revelation

(table of contents)

Your Every Word I Eat

I love the Bible so much
It is a Blessing to my heart
And an uplift to my soul

It is the Way of the Lord
For helping us sinners
To understand His Cause

The word “Bible” is capitalized
Because it is the greatest book
In the world for all time

It soothes the soul and strengthens the weak
It breathes fire on the believer
And cuts through asunder to the unbeliever

(table of contents)

Your Every Word I Eat

It is a sharp razor blade
That convicts the flesh and soul
Of all their sins

It never runs dry, never gets old
Never stops keeping the tidal wave
And the fires of hell from entering

It leads us directly to the Lord Jesus Christ
So that we may repent
And be His shining Bride

It is the greatest record there is in the universe
Of the love story of God and His people
World without end. Amen.

(table of contents)

There’s a Time for Everything

There’s a time to reap
And a time to sow
A time to weep the velvety smoke

A time for hope
A time for chance
A time for love forevermore

A time to destroy
And a time to cease
To end the handles easily

A time to uproot
That which was torn
A time to love that which was born

(table of contents)

There’s a Time for Everything

A time to descend
And a time to crease
That which is necessary in the eyes of men

A time to gather the broken chaff
A time to ascend the heavenly realms
And a time to prevent the ever boiling bliss

A time to collect the payment’s rent
A time to behold that beauty’s end
Making me laugh to my loving friend

A time to modify the Godly assignment
The hood and the wink
Have nothing to brag

(table of contents)

There’s a Time for Everything

A time to lift up the ever confinement
That poisons the soul
In an endearing bereavement

A time to shoot the pain of time
A time to embrace the clock of rhyme
In sudden onset of fruition

A time to master the signs of space
To ever receive the ever lonely grace
And cut the soul and spirit asunder

The Word of God is a Holy Dependence
For it wipes away our sins
And brings us back to Him

(table of contents)

Endless Books

If I would only listen to the Lord Jesus Christ
I can write Endless Books
And share it with the world, all for free

For there is far greater richness
In distributing free pdf books
Rather than charging them for a nonzero expensive price

For the Lord Jesus Christ died on the cross
But didn’t charge us with money and gold for payment
It was all for free

The world wants us to love money
Love fame and fortune
Love worldly things that doesn’t matter to Heaven

(table of contents)

Endless Books

When I get to Heaven
I want to write Endless Books about
Math-Sci-Comp
Isn't that a beautiful thing?

Math-Sci-Comp are Lovely Subjects
They are also Breathing Alive Objects
And Places for Exploration and Discovery

In Heaven everything is alive, with life
Every first letter of the Entities are capitalized
The Holy Trinity gives them Life

In Heaven there is so much Freedom
We will see the fruits and labors of the scientific method
Which will be changingly called "The Ways Of Science"

(table of contents)

Endless Books

On Earth, writing books is a hard endeavor
It takes time, even months or years
But in Heaven it’s an easy simple piece of pie

You will see Everything, hear Everything, taste Everything, touch Everything, and smell Everything

All of our senses can detect and feel
The very fabric of Heaven
In the faculty of our soul and glorified body

If only we believe the Lord Jesus Christ
And study His Word every day
Then rest assured we will enjoy writing and reading the Books Of Heaven

(table of contents)

I Love You, Holy Spirit

I love You, Holy Spirit
If God The Father is The Creator, and The Lord Jesus Christ our Saviour, then You Holy Spirit are our Helper And Everfaithful Friend

There is always “u” in “neighbour” and “Saviour” because “u” stands for universal
The Lord Jesus Christ is an Eternal God
And our Brothers and Sisters in Heaven have everlasting life

The Holy Spirit is Love from Up Above
He teaches me to compose these poems
And write these songs of love and great mercy

He is immutable, doesn’t change
He loves human beings with an equal heart
His love for all never fades

(table of contents)

I Love You, Holy Spirit

He assures us that we will be saved
Once we accept the Lord Jesus Christ
And constantly repent of our sins by His blood on the cross

He loves us so much
With a love so true
He never lets us go

He embraces us with a love so tight
He prevents us from sin
And continues our spiritual fight

He allows us to enjoy beautiful things
His fruits and gifts
He wants us to receive

(table of contents)

I Love You, Holy Spirit

Fruits of love, joy, peace
Patience, kindness, goodness
Faithfulness, gentleness, self-control

Gifts of word of wisdom, word of knowledge, discerning of spirits, faith, miracles, healing, tongues, interpretation, prophecy

The Holy Spirit guides us always
To fight the good fight
Finish the race and keep the faith

He is our Ever Protector And Defender
He wants us all to succeed
And make it to Heaven someday

(table of contents)

A Test of Faith

There were so many tests in my life
Like in the classroom and in school
When entering college, or grade school
and high school

So many tests like algebra, geometry,
trigonometry, calculus, biology, general
chemistry, analytical chemistry,

organic chemistry, physical chemistry,
inorganic chemistry, biochemistry,
physics, electronics, javascript, go,
python, java, kotlin,

c-sharp, r, ruby, c-plusplus, typescript,
comptia a+, comptia network+, comptia
server+, comptia security+, ccna, ccnp,
lpic-1 and 2

(table of contents)

A Test of Faith

mcsa, mcse, linux administration, game programming, software engineering, photo editing, video editing, accounting, linux server, linux command line, html, and css

In all of these subjects
We are given tests and fields
So as to test our strength and mettle

But the most important test
Is the test of the Lord
A test of faith and love for Him

Every day we walk to school
Bringing with us homeworks and assignments
To be checked by the teacher

(table of contents)

A Test of Faith

We engage ourselves
With the knowledge and love of the world
And of career and money after graduation

But we neglect what matters most
The test given by the Lord
To love Him with our whole mind and soul
And to love our neighbours as He has loved us

So many people have passed and gone
From birth to childhood to adulthood to death
Without ever knowing the Lord or lacking in knowledge of Him

This is a sad part and reality on Earth
For only in the Lord will we find true A's and 1's
The grades more precious than money and gold

(table of contents)

Wisdom for Organization

I had, have and will have continuous faith in the Lord
So that He will give me all things
Including the Wisdom for Organization

Before, my things are scattered in the room
I have no time to declutter
For I have more time for the Lord

I have all the time in the world
To study, from algebra to accounting
I never ceased to read and examine

That I did in the afternoon
For in the morning, I did spiritual warfare
I prayed, listened to Christian worship songs, and read spiritual books like Bible and study, and Heaven and hell testimonies

(table of contents)

Wisdom for Organization

The Lord taught me to organize my life
So He can pour out His power on me
In writing His words through songs and poems

He loves me so much
Because I always obey Him
And help the poor by the wayside

He teaches me The Great Organization
Where angels and saints
Descend and ascend to Heaven

The Great Organization
Is the Leader of all wisdom for organization
On Earth, in the Heavens, and in the whole Universe

(table of contents)

Wisdom for Organization

The Lord teaches me all things to know
Including the writing of these poems
And the songs I sing before Him

He gives me wisdom to move fast and quick
For the appointed time is so very near
I wrote this poetry book in only three weeks

He gives me wisdom to survive
The clutches and snares of the enemy
To finish this poetry to the end

So I will thank and praise the Lord forevermore
For He has given me wisdom for organization
For He is my Wisdom For Organization after all

(table of contents)

True Peace

True peace only comes from the Lord
He causes the wars to cease
And the battles to be broken

He causes the weak to be strong
And the poor to be rich
In His Blessings

He is the Love of my life
My True Peace
And the source thereafter

He shines like the sun
True peace on my palm
And I can taste the heat and goodness

(table of contents)

True Peace

He brings me to the Isle of Love
To participate in His compassion and mercy
Throughout the day

There is no night in His Holy Place
Only day with the fiery sun’s rays
I can taste peace on my tongue

He brings me to peace, and His enemies to war
His true peace is what fights the battles
Like a double-edged blade of sharpness and wrath

I can truly enjoy His peace
Because I loved Him so much
Not just His hand of blessings

(table of contents)

True Peace

To rest in peace is to die
But to live in peace is to gain
The everlasting goodness of God

We will never understand
The peace He ever gives
Without us loving Him and our neighbours

He will never abandon or forsake us
He will always be there for us
Protecting us from the true enemy – satan

He will wipe away our tears
Once the Heavenly War is over
And finally He will bring us to His True Peace

(table of contents)

Not Necessary

The world I live in
Is not necessary for me
For I'm in the world but not of it

It is Jesus Christ, my Necessity
I humble myself greatly
To accept and receive Him

I'm in the middle of battles
In the middle of wars
But I never give up, never succumb

His Holy Name I praise a lot
And love so much
I am His soldier for all time

(table of contents)

Not Necessary

He gives me strong valleys
And feeds me the food overtaking
My soul is not lost in Him

Even though the battles get tough
I still get a chance to win small
All the trials and tribulations of life

I give the Lord the gift of Honor
For mighty is His Name
And worthy is His Salvation

He offers me to be saved from hell
For He wants me in Heaven
Along with all the angels and saints with Him

(table of contents)

Not Necessary

I praise the Lord and sing my songs
Of wisdom and worship forevermore
Blessed be the name of the Lord

He drives me through smooth pavement
And His Kingdom is golden shiny
With a touch of pearly diamonds

The Lord will never fail me
He is my Necessity, the Source of all I am
We will never be drifting in the sea of oblivion

The Lord is my Shepherd and King
My Lord my Life and the Entirety of my Being
For He will bring me to Regeneration

(table of contents)

My Favorite YouTube Christian Channels

My favorite YouTube Christian channels are (in correct order):

Billy Graham evangelistic association, CBN news, Bill Wiese, Derek Prince, Grace Digital Network, Grace for Purpose, Grace for Purpose prayers,

The Watchman, Watchman End Times Daily Bible Prophecy channel, Alpha and Omega Productions, Lion of Judah, 100 Huntley

Supernatural Stories, Torch of Christ ministries, Daily Jesus Devotional, Daily Jesus Prayers, Sa Iyong Araw, Gab Bueno, Redeemer's Hand ministries

(table of contents)

My Favorite YouTube Christian Channels

Faithful Chronicles, Mighty Oracle, Beyond the Light, The Afterlife Stories, Heaven Awaits, Jesus Gospel, Bible Wisdom, Jesus in the Bible

Lord Helps, Think Jesus Network, In God's World, Yeshua Songs, Living Faith Motion, Divine Harmony Choir, and many more
The list is neverending

I watch these great YouTube Christian channels
After I'm through reading the KJV, the CTC, Wattpad Heaven and hell testimonies, Hell Testimonies by Mike Peralta, Christian books by Watchman Nee and Witness Lee, and The Reformation Heritage KJV Study Bible

(table of contents)

My Favorite YouTube Christian Channels

These great YouTube Christian channels
Feed my soul for the Lord Jesus Christ
And uplift my spirit from downward spiralling

The Lord my God
Commissioned these Christian channels
To share to the world His Word, a mighty-edged Sword

He builds His Kingdom on Earth
He uses these YouTube channels
To fight for His Cause

But the story never ends
For we will celebrate the vloggers
When we all get to Heaven

For the Rapture is about to happen
Not far but near
The whole Earth is trembling

(table of contents)

The Periodic Table

The periodic table of elements
I have memorized from top to bottom
And left to right with God’s Help

By using Onomatopoeia
I can harness His energy
And put the chemical symbols in their place

So on the two highest elements
Say “Hihe” for hydrogen and helium
Then we go to the whole s-block

Libe
Namag
Kayca
Rubsir
Cisba
Fatherra (where father is fr)

(table of contents)

Then for the whole p-block we have

Bicinofne
Alsipsclar
Gageasseberkar
Insinsubteixe
Tilpubbipoatrun
Nahfilmacluvtisog

Then for the whole d-block we have

Sictivicromanfeconicuzin
Yzirnebmoticrurahpadagcad
Haftawreosirpitauhg
Rufdubsugbihhasmatdasragcan

(table of contents)

Then finally for the f-block we have

Lacepernidpumsumugudtobedyhoertimybl
u
Acthapaunappuamcambakcufesfammidnol
er

This I memorized not on my own
Or through my strength or might
Or through my memory skills or meds
and vits

For only the Lord Jesus Christ
Can give us all these things
Now and for all Eternity

(table of contents)

I Walk Very Fast

I walk very fast, and move and sprint
Like a man on a mission
On the Lord I depend

He is my source of all strength
Mighty is His will
And powerful is His Word

He wants me to love Him always
For He needs me to show many things
He is never blind to my reason and faith

He always instills in me
Loves of fruition and destiny
He wants me to follow His bid

(table of contents)

I Walk Very Fast

He brings me to high waters
And calms all the storm
For my mission is important

I have to love Him
And this love will yield
A very dignified glorious cause

For the planet Earth needs a Saviour
Like the Lord Jesus Christ
The One and Only Saviour of the world

He gives me ideas to reflect on
And mighty are His Words
For they draw nigh

(table of contents)

I Walk Very Fast

The blood He shed on the cross
Is enough to bring our faith
Strong and wise

He makes me run an errand
But gives me much needed rest
To prepare for another day of reckoning

The Lord wants me to fight His battles
And needs me to save His people
From the wrath of the enemy

The Lord Jesus Christ is my Strength
And He will always be
Until the very end, and the Eternity

(table of contents)

God Is Wiser than Us

The bow is struck down by the mighty
And there is no one escaping
The cross of the lad is at hand

Whenever we reach the destination
You and me will come apart
The dereliction

The rising sun is at hand
And the fist fighting cops
Are never neglected

The truly source of emancipation
Is based on the prediction
That Jesus Christ is God

(table of contents)

God Is Wiser than Us

He is the Wise Counsellor
The Son of God
Who can never be compromised

The promise of a fruitful life
Is fulfilled in Christ above
In the Heavenly realms

The act of touching the Risen King
Is a moment of sorrow
Of things unbecoming

The movement of life reaches the stars
As the flea and mite arrive from afar
To give a helping hand

(table of contents)

God Is Wiser than Us

The rising star of Bethlehem
Is neither talking nor acting
In a distance

I love the way the Lord holds me dear
For I was blind but now I see
God’s Eternal manifestation and beauty

The Wiser King must rule the Earth
His sovereignty is forever and a day
I was left unfolding

The last resort of things to come
Is the love that always abounds
And overflowing

(table of contents)

You Do Everything for Me

You offer me the Life You have
And open many possibilities
The Lord is at hand

The Lord never fails me
He carries me with His righteous right hand
And maintains me close to Him

The Lion and the Lamb
Are two smiling symbols
Ready to take on the gift of life

The wasp in the manger field
Is flying high above the kaleidoscope seal
That never dies

(table of contents)

You Do Everything for Me

The fly that was once new
Is restored and regenerated
To its former state

So is the Lord’s love for me
Never withers never blames
He loves me better best, more and most

He rescues me away from the evil world
The tyrant king has no place on Earth
Beautiful things are descending

The Beauty of the Lord
I cannot grasp
Like the mighty wind that catches the storm

(table of contents)

You Do Everything for Me

The sycamore tree has lost its glare
For the end will come tomorrow
And the taste of the flesh is nothing but sorrow

The mustard seed has grown its way
To the kingdom still in disarray
A never pretending

The love You have doesn’t destroy
The fountain foundation
Of the world we once had

For the Lord is in His glory and might
He trusts the weak
And pulls the poor out of sight

(table of contents)

Gift of God

The Gift of God is the life He gives
He doesn’t leave us in the dark
Nor to sing an untuned song

He flashes the weak with a love so strong
I’m taken out of my seat
To where You belong

I never have to testify again
For You are my Lord
The Risen King

You lead me to a life of love
Like Garden Cities on up above
You pull me off when I’m weakest

(table of contents)

Gift of God

I always cherish the moments
I hear Your voice to make us a tandem
We definitely make a good team

The Lord sings songs for my heavy-laden life
My existence depends on Him
And not on some Philly drunken strife

The Lord gives me gifts that I will like
I pull them close to my heart
And never throws them away, notwithstanding

The Lord doesn’t need a learned man
Because he rejects His gifts
To be left behind

(table of contents)

Gift of God

The Lord knows the beat of our hearts
If we are for Him or against Him
The Lord is at hand

The Lord loves you and me
He shows this through
incomprehensibility
And the philanthropist rises anew

The Lord is willing to give me His
Blessings
He loves me more than I'll ever know
Not on Earth, not in this lifetime

The Gift of God is truly a spectacular
For He wants me to avoid hell
And come to His Kingdom in Heaven

(table of contents)

More than Theories and Experiments

The Lord loves us
More than our achievements in college
More than our careers and professions

He loves us more
Than experiments and theories
For His Love is so very real, indeed

Heaven is real and I trust Him so
The Life of the Lamb I will behold tomorrow
After the Rapture happens

The Rapture is true
It comes from God Above, raining
Rising flying admonishing

(table of contents)

More than Theories and Experiments

The Love of God is very real
More than the scientific method
More than the spoke of a wheel

The rising lion devours everyone
Everything in its path
We must hold back

The world is a dangerous place
It is a battlefield, a warring ground
Between the armies of light and forces of darkness

The devil s. uses its tools
Like math-sci-comp
To bring wars, neverending

(table of contents)

More than Theories and Experiments

For before the fall of man
math-sci-comp was not
But Math Computer and Science

Here it is easy to see
That the chains are gone
And Math Computer Science is free

Math Computer Science is not just a tool
But more than that, it is a place
Where Theories and Experiments dwell, beautifully

So work out your own personal salvation
In fear and trembling
So that one day, we will reap the so very good things in MSC

(table of contents)

Faith First Before Good Works

In the Holy Bible
We are told to have faith in the Lord Jesus Christ
And do good works

Now these two are inseparable
For once you receive Christ with great faith
You are in the right road for doing good works

Good works are in many forms
Like preaching the Gospel, living a life according to God's will, helping the needy and poor, and supporting God servants like His prophets

Some brothers and sisters in the faith
May say that only faith is enough
And others that only good works is enough

(table of contents)

Faith First Before Good Works

But the Lord Jesus Christ told me
"If you truly love Me, you must have great faith in me, deny the world and flesh, repent of your sins constantly, grow your faith through Bible Study, pray consistently and love your neighbours as I have loved you"

So that faith is only one
The Lord Jesus Christ requires a great one
And many are the works we can do

Because each of us have assignments
That differ one from the other
Like our bodies' many parts

We must always seek the Lord
So we'll know our assignment on Earth
And not drift in the sea of doubt and despair, afloating

(table of contents)

Faith First Before Good Works

He gives us fruits and gifts
Through the Holy Spirit
To be used for our daily tasks and missions

He wants us to walk very fast
And obey His every command
So that we will not stumble or falter

He wants us to make it to Heaven
After enduring so many trials and tribulations
That are ahead, to come

So then, we must use our wisdom, knowledge and intelligence
To do our missions on Earth
That will someday merit our blessings

(table of contents)

Temptations are Real

Temptations are real
They come from the devil s.
And they are signs of hopelessness and defeat by the enemy

Temptations don’t come from God
But He allows them to come into our lives
To test our faith, dependence and love for Him

Every Christian and nonbeliever
Receive temptations, are tempted
To test their strength, mettle and fortitude

So that when trials and tribulations come
And problems and questionings arise
He will be ready to face them all, to endure

(table of contents)

Temptations are Real

He is not tested beyond his capacity
The water in the drum will not overflow
Because of the Love of God for you and me

He will always be guided, taught and helped
Through the Power of the Holy Spirit
Who is a very Powerful God and part of the Holy Trinity

So let us not hesitate and carry our crosses
Let us become and remain to be soldiers of the Most High God
Let us work for Him and do well our job

For we are sent on a mission
To fight and defeat the enemy
And to return the Earth to its former glory

(table of contents)

Temptations are Real

Temptations are real because
If you ever form negative thoughts
Words and actions

They are the dwelling places
The battle ground
Between the Armies of Good and forces of evil

Just like chess
Temptations are weapons of the enemy
Which reside in the kingdom of darkness

They are led by s. (without respect) to total defeat
Crushing, obliteration, destruction, annihilation
And bringing the Earth back into Fruition

(table of contents)

The Life We Shouldn’t Live

The life we shouldn’t live
Is the life of sin
And for the enemy

We must always love God above all
And love our neighbours as Jesus is continuing to love us
These are the two most important commandments

But the Ten Commandments
We must not neglect nor ignore
For Jesus came fulfilling the laws and the prophets

We must always be like Jesus
In holiness, in spirit, and in truth
By obeying all of His commandments

(table of contents)

The Life We Shouldn’t Live

For Jesus said in the Bible
“If you truly love me,
Obey all of my commandments”

“Deny the world and flesh,
Carry your cross,
And follow me”

Jesus Christ loves us very much
That He gave His life
For the salvation of sinners

But first, we must repent of our sins
Grow our faith every day
Be justified and sanctified by living holy lives

(table of contents)

The Life We Shouldn’t Live

We must love the Lord and not the world
For being friends with the world
Is enmity with God

God loves us very much
That He gives us many chances and opportunities
To repent of our sins and go back to Him

He wants us to pray every so often
So that we will not fall
Into the wiles of the enemy

He wants us to follow the Examples of Jesus Christ
To be always ready to give up our work and time
To finish the mission and be with Him for all Eternity

(table of contents)

Always Praying for Them

I start praying
By praising the Lord
The God of the Heavens and the Earth

For His Excellency, Intelligence, Glory,
Honor, Power, Greatness, Holiness,
Sovereignty, Love, Goodness, and
Kindness for us

Then I thank Him
For all the Graces and Blessings in my life
come pouring
For all the people we serve (the
government)
And those under us (our tenants and
workers)

I also thank Him for His always Guidance
Teachings and Help
And all that matters in life the most

(table of contents)

Always Praying for Them

Then I pray to seek His Help
For the forgiveness of sins
By me and other people on Earth

I seek His help
To help me and my neighbours
Always repent of our sins

Always have faith and trust
In the Lord
And to never sin again forever

I seek His Help
To help others and I
To not fall in the sin of idolatry

(table of contents)

Always Praying for Them

Like making gods
Out of His creation
And serving them like God

I seek His help
So that others and I
Will always have the strength and courage

To always obey
All of His Statutes, Precepts, Judgments, Will, Laws, and Words in the Holy Scriptures in the Holy Bible

Finally I pray for good health, strength, safety and good condition for all of my family, relatives, friends, the poor by the wayside, strangers, and other people still

(table of contents)

No More Math-Sci-Comp

The subject math has been replaced by
“My All To Him”
Science by “Salvation Can Increase Everyone’s Natural Collective Enlightenment”
And computer by “Christ Offers Many Possibilities Using The Everlasting Redemption”

algebra has been replaced by Heavenly Symbols
geometry by Heavenly Structures And Resources
And trigonometry by The Holy Trinity

calculus has been replaced by Glorification
biology by Eternal Life
And general chemistry by God’s Love For Us

(table of contents)

analytical chemistry has been replaced by
Our Faith And Trust In The Lord Our God
organic chemistry by Our True Love For God
And physical chemistry by Our Glorified Bodies

inorganic chemistry has been replaced by
Heavenly Mansions
biochemistry by Eternal Love
And physics by Faithfulness And Diligence In The Lord

electronics has been replaced by Loving Connections
computer programming by True Freedom
And computer networking by Brotherly And Sisterly Love

(table of contents)

No More Math-Sci-Comp

computer security has been replaced by
The Shield From The Lord
software by The Heavenly Saints
And hardware by The Heavenly Bodies

game programming has been replaced by
God’s Design
gaming by God’s Help
photo editing by Heavenly Art
video editing by Heavenly Production
And accounting by Graces And Blessings
From The Lord

All of these subjects have been replaced
by God
To make our lives easier and better
But we must always put our whole faith
and trust in Him first

(table of contents)

No More Math-Sci-Comp

The moment we realize
That our burdens and pain in life
Is the beginning of true wisdom,
knowledge and intelligence

For as human beings
We are God's Beloved Creation created in
His own Likeness and Image
That we should not work and toil even in
the Garden of Eden

For the Lord our God
Is a very Loving God
He wants to bring us to the new garden
of eden, called
"The Garden Cities And A Life Full Of
Love"

(table of contents)

Gospel Truths and Stories

I love reading the New Testament
Gospels by our Lord Jesus Christ
It soothes my soul and uplifts my spirit
Every now and then

I read the Gospels of Matthew, Mark,
Luke, and John in this order
I never jump to just any verses
But begin from chapter one until the end

I love reading the Gospels
Because they are from the Lord
They were written out of His Love for
man

He can feel our pain, experience our loss
He can dry our tears of everlasting cause
He can carry us through the tides of life

(table of contents)

He can make us sing the songs of love
To pull up our spirits
To reach the Heavens above

He can manifest in so many ways
From the still small voice on our heads to our ears
And the ever glowing light that never disappears

He shows us the Way, the Truth, and the Life
We are not forgotten, out of sight
He reveals this to Christians and unbelievers alike

He gives us the strength to carry on
To bring His name abroad
And proclaim His neverending song

(table of contents)

He enlightens our mind
And sets free our hearts
From the ever clutching pain of destruction

He brings upon Himself
All the pain and suffering and hardship
That we once knew

For in the cross
His blood was shed
For our sins, me and you

His Love is Neverending
It is expressed in the Gospels
Of Matthew, Mark, Luke, and John, unrelenting

(table of contents)

Heavenly Symbols Before Algebra

Addition is the first intuition
That brings us back to the modern age
I couldn’t ask for more

Multiplication is another realm
Of beautiful poems and songs
I cannot hold on

Subtraction is but a tragedy
Working its way through you and me
Having its way through understanding

Division is but a misty cloud
That drains the rains
Of anatomical spout

(table of contents)

Heavenly Symbols Before Algebra

Logarithms are the task at hand
That feverish monk
That lays down his hand

Exponents are the work of the day
That pinches the salt
And opens the way

Round circles are dust to the ground
That monitors the feeble
Of sick and sound

Ellipses make my understanding more
They create a vacuum
That makes eagles soar

(table of contents)

Heavenly Symbols Before Algebra

Hyperbolas attract the negative wheat
Exploring our understanding
Carrying our defeat

Parabolas are but a thing of the past
They never die down
To help me succeed at last

The binomial theorem almost got me in
The songs of voices and assuring
The lad of the rising has been

Then sequences and series
Make my heart melt anew
For I’m gonna love algebra for me and you

(table of contents)

Heavenly Structures and Resources Before Geometry

Shapes have I endured through the years
The ever depicting contour of a photograph
That smiles and sings the new birds anew

They are present in 1 to 2 to 3 to infinity’s realm
And they include points, lines, circles and polygons of increasing sizes

The triangle is the most important
A symbol of the Begotten Son
Together with the Father and Holy Spirit

A new day’s dawn has begun
And the rays of the sun
Are measured in degrees and radians

(table of contents)

Heavenly Structures and Resources Before Geometry

The circle is but a hiding place
For the perfect enemies and foes
Lurking in the darkest shadows

The spring of fortune lies in the plain
That never helps me forget
The monkeys insane

The torturing vessel that line segments
Is the love of the risen King
That we must all have

The tidal wave of trapezoids
Will bring us back to Him
After a period of hardships and suffering

(table of contents)

Heavenly Structures and Resources Before Geometry

The Great Tribulation of love
Brings forth the incandescent rays and angles
That makes me happy even if single

With what do the shapes compare on the Earth?
For the mighty God is superior to them all
Even the valleys and mountains succumb to His will

The points, lines, and polygons
Are the most important foundations
Of the fractals of generations to come

The Heavenly bodies do use these shapes
The beginning of endless rotation
Generation, measuring and everlasting rates

(table of contents)

Holy Trinity Before Trigonometry

The Holy Trinity is overpowering
In angles in threes
In the triangles becoming

I love the way You look to me
From the angle with chemistry
I am overjoyed in degrees and radians

Pi has no place in my soul
And the circle of life forevermore
The world is truly unbecoming

The trigonometric functions called “trigo fun”
And identities called “trigo iden”
Are fun to witness and learn

(table of contents)

Holy Trinity Before Trigonometry

Sines and cosines do give some ache
But rest assured the Lord is with you
Through night and day

For through it all He will bless you
An infinite degree turn
Of angles in circular motion

I will not ever understand Your love
Except I get to Heaven
And witness the enduring trust

The angles of misery
Are always upon me
The doors of negativity are closing

(table of contents)

Holy Trinity Before Trigonometry

My mission is to determine
The circle of love
And rotation of understanding

For trigonometry is holy
Only if and when we connect it
To the Holy Trinity

The love of the Holy Trinity
Is enough for me
I will definitely rise with tangents and cot

The Holy Trinity will bless me
Throughout all my life
With neverending 360 degrees

(table of contents)

Glorification Before Calculus

There are no limits in God’s power
Strength, might and song by the hour
His return is imminent and at hand

The Lion of Judah rises
From top to bottom like functions
In algebra and precalculus

In calculus, the moment of truth is revealed
That we will be changed anew, have glorified bodies
In the process of glorification

For calculus is a math of change
Ruled supreme by the Immutable God Almighty
Forever and evermore

(table of contents)

Glorification Before Calculus

The strings of tide are upon us
They don’t realize the coming diluvian
Which will drastically change their lives

The Eternity is ever waiting for me
To derive love from my Heavenly Father above
And integrate my thoughts words and deeds for good

The Eternal God is upon us close
Writing the chances
Of eagles and remorse

He will wipe away our tears
Through His Son Jesus Christ
Who will carry us on the sand of sears

(table of contents)

Glorification Before Calculus

The Lord Jesus Christ will change our bodies
To have a glorified one
Until forever may not face again

The Lord Jesus Christ is an able God
His power extends through the limits of space and time
Gravity and the Universe, Teleportation and Hard Work

The Lord Jesus Christ is a faithful God
He does what He promises
To give us glory, honor and guidance

So let us love the Lord always
So that we can change for the best
In His immutable abode

(table of contents)

Eternal Life Before Biology

Biology will be nothing
As compared to the Eternal Life
That the Lord God will bring

He wants us to be faithful to Him always
To the end, to the rainbow colors' bend
And then we'll reach the Heavens

Humans, plants, and animals have life
But God in the Heavenly Realms have Eternal Life
Which He wants to give for you and me

The study of bacteria, viruses and protozoans
Are nothing like the study of Eternal Life
Where the poems and songs we write will come alive and fill the Universe

(table of contents)

Eternal Life Before Biology

Now this is a gift from God
Aside from salvation and saving grace
Which He will give to His faithful ones

If you are already tired of studying biology
Then look no more
For the Heavenly King is already coming

He will replace “biology”
With the “Study Of Life In Eternity”
Which will amaze us to the core

Heaven is filled with Strong Scientists
That study and experiment with entities
To be deployed to the world, to help solve human problems

(table of contents)

Eternal Life Before Biology

The Lord Jesus Christ is my Heavenly King
He gives me nourishment sustenance
To keep me healthy and alive along the way

The medicines that we take on Earth
Are made first in Heaven
Then perfected, distributed to the whole planet

For biology on Earth
Is different to that in Heaven
So in Heaven, we will never get sick nor tired nor sleepy

So let us strive for the better state, better place
Let us not be content now
For Eternal Life is waiting for our embrace

(table of contents)

God’s Love Before General Chemistry

It is good to love on Earth
Humans, plants, animals, and work
For it is worthy of our time and attention

We enjoy our jobs, careers and profession
We ascend to the top
And lead the corporations

We run for government
And lead the nations
For a certain period of time

We never lack love
Because God gives everything we need
He assigns and sends chemists from up above

(table of contents)

God’s Love Before General Chemistry

General chemistry is an introductory course
An all-encompassing one
A time for struggle and remorse

But God is ever faithful to us
He supplies us all our heart’s desires
If and only when we use it for humanity’s good and betterment

For we are taught by God to love
Love Him first, and then our neighbours
As Christ has loved us

We will never be afraid of Him
For His love is true
Full of patience and understanding

(table of contents)

God’s Love Before General Chemistry

He loves us with a love
Better than general chemistry
Better than all the money and discovery in the world

So let us love God back
By having pure great faith in the Lord Jesus Christ
And loving our neighbours, especially the poor by the wayside

For it is good to love and be loved
Like honey in the tongue and sweet candy
Like expensive chocolates and rocky road ice cream

Let us always remember
The love of God is in our favor
For only those who truly love Him

(table of contents)

Faith and Trust in the Lord Before Analytical Chemistry

In analytical chemistry, there are too many calculations
That trouble the soul until solutions are found, precipitated

There is heaviness and gravity in gravimetric
There is space and time in volumetric
And all-encompassing activity in spectroscopic

The chemicals are purified, brought to perfection
So that the result
Will be a neverending analysis

For there are three, qualitative, quantitative, and methodology
They always come together, come in threes
And never lead separate lives

(table of contents)

Faith and Trust in the Lord Before Analytical Chemistry

The bow was right before the storm
As fires ignite the overheating flask
Of defeat and ascension

We must be ready to face
The battles ahead of us
To our comrades we say, “Thank you”

For this is a battle worth fighting for
To calculate the numbers and strength
Of our armies and forces

Before engaging in the war of truth
The battle of ways
And the fighting of life

(table of contents)

Faith and Trust in the Lord Before Analytical Chemistry

For Jesus is the Only Way, Truth, and Life
And He comes from the Father up above
To win our wars, His daughters and sons

So let us fight the battle
To the end, even giving our lives
In a sacrificial methodology of winning

Even if we are not sure to survive
Let us help one another in teamwork
Strength and might

Always engage in spiritual warfare
When the enemy is near or far
For the Lord our God will come with a helping hand

(table of contents)

True Love for God Before Organic Chemistry

In organic chemistry, we see the Lord rising
From carbon He reveals His Christ
Six letters of Christ for the atomic number
And twelve the God number as its atomic weight or mass

The Lord forms bonds
For you and me
He never withdraws His mighty right hand

He loves us with a neverending love
Like "I love you once"
"I love you twice"
"I love you thrice"
"I love you forever"
In all Heaven and Eternity

(table of contents)

True Love for God Before Organic Chemistry

The love He gives us is ever-enduring
He wants us to get to Him
In His Kingdom in Heaven

The periodic table is but a mess
From north to south, east to west
We must rewrite the world of history

For there arises a certain element
The carbon King that suppresses my strength
In my travelling through the wilderness

For carbon is the strongest of them all
It forms bonds from one to two to three
So that “I love you” and will “Fight for thee”

(table of contents)

True Love for God Before Organic Chemistry

For we must embrace
The greatness of carbon
In all of our days

We must repent our sins in the Justification
And always be holy in all days in the Sanctification
For tomorrow we will be ready for Glorification

The purity of carbon is upon me
He sends me to all the nations
With greetings of life, peace and realization

If and only when we fight the good fight
Finish the race and keep the faith
Will we be able to reach Carbon, the life-giving Life-giver place of beauty, wisdom, power and might

(table of contents)

True Love for God Before Organic Chemistry

For we are God’s children, all of us
For the real enemy is satan, s.
The utmost defeat of which throws him
down tumbling in the sea of lake and fire

(table of contents)

Glorified Bodies Before Physical Chemistry

Physical chemistry is about matter and energy
Thermodynamics, quantum mechanics and kinetics
It requires heavy math like calculus and our imagination for theories and concepts formation

But there is an even so much far more easier and less difficult way to study physical chemistry
By trusting in the words of the Lord that someday getting to Heaven we'll have Glorified Bodies

(table of contents)

Glorified Bodies Before Physical Chemistry

For the Lord God loves us so much
That He sent His Son to die on the cross for us
So that our physical dirty filthy bodies of sin will take on the Incorruptible Body of Glorious Beginning and Ending Forever and Ever

He loves us so much
He doesn’t want us to study anymore
The ever downward chemistry of physics

For there is also a periodic table of elements in hell
For those who don’t love the Lord
And do His will

(table of contents)

Glorified Bodies Before Physical Chemistry

The physical chemistry we are studying
on Earth
Is actually from hell
Where there are drug poisonings and
bomb explosions

But rest assured, the faithful Christians
who endure in their faith through to the
end
Will be given a different physical
chemistry to study in Heaven, along with
Glorified Bodies

Because in Heaven, we will experience
Everything
For nothing is impossible with God
All the unsolved problems in math,
science, and computer on Earth will have
a new beginning

(table of contents)

Glorified Bodies Before Physical Chemistry

War and corruption in this world is rampant
And so are hatred and sexual sins
This world truly loves physical sin

There is no escaping
Because this world is ruled by s. and his cohorts
Who had already been defeated by Jesus Christ on the cross

We must wait for what God will tell us
For He loves us so much
And He wants us to succeed in the New PhyChem called PCH

We must always believe in the Holy Trinity
For His holiness matters in our lives
And the source of our strength and piety

(table of contents)

Heavenly Mansions Before Inorganic Chemistry

Inorganic chemistry is about
Elements other than carbon
And the bonds they form

It is not an easy feat to understand
The tides are great and the bonds broken
And so are the hands of man

Metals come our way, and metallic compounds
They soothe the air and find my way
To eternity and abode's dwelling

The organometallics, the best
Greatest among the rest
For to God it is a mighty test

We feel the presence of actinides
I taste the sweetness of lanthanides
That brings us to f-block forever

(table of contents)

Heavenly Mansions Before Inorganic Chemistry

The s-block only has two
Hydrogen and the rest below
A mighty wind beneath the storm

The p-block is for perseverance
And patience I wot not
For I am a very sinful man

The d-block I can determine
But it’s very hard for me to bring
And release from deep within

The God of love is also the God
That inorganic chemistry
Can abide forevermore

(table of contents)

Heavenly Mansions Before Inorganic Chemistry

The way I study inorganic chemistry
Is not a bond but a way of healing
Tearing apart the preventive singing

For Heavenly Mansions we will go to
Once we succeed on trials and tribulations
As ever written in the Book of Awakening

And so the time is ripe now
When the wheat and tares will be separated
And the ungodly will be burned aborning

(table of contents)

Eternal Love Before Biochemistry

The roaring past the soaring eagle
Is what makes this subject worthwhile
Because of the pain and trust You bring to me

You bathe me with Your love
Just like zebras and carcases
That proves the storm to behold before hand

This subject as tit-for-tat
Makes me wanna testify
To the goodness of God above

The help I need from creating proteins
Is the same help that leads me astray
In conducting nucleic acids

(table of contents)

Eternal Love Before Biochemistry

The song for carbohydrates
Are the same songs for lipids indeed
The water spout that runs dry in the twinkling of an eye

Rapture causes my soul to burst
In the lurking of the shadows
In the shaking of the Earth

For if the chromosomes 1, 2, 3
Always remember becomes you and me
At the last drop for you and me

It is but trinary to give honor
To God the Father, the Son, the Holy Spirit
And I won’t quit going back now

(table of contents)

Eternal Love Before Biochemistry

The rising DNA and RNA
Tries to master
The growing sea of tide and cluster

The combination of proteins and 3D shapes
Have caused me amazement
All throughout the folding

And I never knew what love was
Til the biosignalling began
When RNA and DNA are profound

The lightning strikes from a near distance
But the Lord will always be at hand
Creating an evermore double helix molecule

(table of contents)

Diligence Before Physics

Physics amounts to nothing but pain
The travelling of redundant distance
In a sea of love and misery

A circular path is taken
Rotating evenly through the hills
Of dangerous love overtaking

The motor vehicles collide with others
In a perfect momentum of drifting away
Of speed and sound that makes me insane

The wheelbarrow horse neglects the light
That moves in speeds, reflection and refraction
Which doesn’t really know its origin

(table of contents)

Diligence Before Physics

The songs of dew prevents the atom
From encircling the sun of love
And going before laws of Newton

Einstein dwells in the lowest parts
He created the formula
That sped up utter destruction

Maxwell and the others, the guys that overturn
The moment we appreciate
The cause of the Lord Jesus

The exchange of time and space foretold
The atoms circling around
Is the same that becomes the poor and needy

(table of contents)

Diligence Before Physics

For the reason is to bear the ever-increasing cost
That landed Tesla the worst
For Elon Musk has done the most

Physics is about space and travel and time
That pulls us through the universe of love
And abides by the love of the All-Eternal God

For quantum mechanics will advance so high
So far that you will appreciate
Seeking God’s help in return

Physics will never ever fail us
For Science has regained its former beauty
And the way we see things differently, now and forevermore

(table of contents)

Loving Connections Before Electronics

Alone in the dark I sought the Lord
To help me find the right connection
Between the circuits of differing proportions

The life of electricity
Drains my energy from deep within
And banishes the unwanted resistance

The voltage is hard
And the current is difficult
But I must choose to love with closeness

The amount of time spent
Is not the same as the rate
Of changing tides and seasons

(table of contents)

Loving Connections Before Electronics

We must wait for the Lord
To buy us more time
Into the heart of bulbs and sockets

Electronics is about the breadboard
The Love of God in Christ Jesus
My one and only Saviour

My spirit jumps for joy
When the circuitry of electricity
Permeates my whole being

As son and child of the Most High God
I intend to share my love with others
And to the Lord to prevent short circuitry

(table of contents)

Loving Connections Before Electronics

The semiconductors have once again proven
That they are the most superior things
In applying to cellphones and televisions
Laptops and tablets

The periodic elements are totally burned
Because semiconductors rule
With carbon till the end

So the loving connections in electronics
Are those that connect
math-computer-science

For Science has become beautiful again
And she would definitely pave the way
For more advancements, like space travel, time travel, teleportation, instant transmission, and regeneration

(table of contents)

Freedom Before Programming

Syntax, semantics and logic
Are what drives this computer inside
And outside is designed for its well-being

Lua, Java, and C++ are they
And they stand for “the Lord Jesus Christ”
We won’t give up on programming more

For in the Land of Programming
Softwares are even so much more faster than ai
And even so much more stronger than hardware on Earth

The land of the living makes programming difficult
By mixing and jumbling letters numbers and symbols
But this must not be so

(table of contents)

Freedom Before Programming

For if you have letters then use only words
If you have numbers then use only numbers
And if you have symbols then use only symbols

This is the most basic and fundamental law
To attain similarity, likeness and affinity
For there is no such thing as “opposites attract”
(Only on Earth)
No such thing as “love between good and evil”
Only “good for and with good in Heaven”
And “evil against evil in hell”

(table of contents)

Freedom Before Programming

When I was studying in Our Lady of Fatima University
Those were the best days of my life
I have become exceedingly efficient at computer science
But left even before graduating
Because the Lord already called me on a mission

This mission is to soar above the clouds
Touch the sun and regenerate my emotions
Living temporarily in the stars for protection

The way to positive infinity
Is not the same as negative infinity
But they connect at a junction

(table of contents)

Freedom Before Programming

That junction is the parable of wheat and tares
Where the wheat are good and beautiful souls
While the tares are bad evil souls

This I speak of human beings
For truly there is Heaven and hell
And you will go to either one or the other

Like there are only two in computer programming
1s and 0s, or ones and zeroes
But there should have been more

For if you want to see, feel and experience God and His numbering intelligence
Then use trinary
Like from 1 to 2 to 3

(table of contents)

Freedom Before Programming

Now we must not use 0, or zero
For it means nothing, nothingness, nada
For God is not a God of nothing, but of everything good in His sight

(Note: I have used 14 stanzas for this poem and not 12 because my love for God is ever bursting and cannot be contained. From now on, I will express in at least 12 or more just to put my points and ideas across. But sometimes less than 12 as I see or deem fit)

(table of contents)

God’s Help Before Gaming

Whenever I am tired and weary
And needing rest or sleep
I instead play computer games on my laptop

The games I play have certain dates of playing
So that I don’t get addicted
And playing time is just five minutes, thanks to god-mode or infinite health and infinite ammo without reloading

So the games I play (Steam games first) (according to a system of dates and sequences) are:

(table of contents)

God’s Help Before Gaming

Month’s day 1 – Alan Wake
Day 2 – doom + doom 2
Day 3 – far cry 3
Day 4 – fear 2: project origin
Day 5 – resident evil 4 (2005)
Day 6 – resident evil 5
Day 7 – resident evil 6
Day 8 – resident evil revelations
Day 9 – resident evil revelations 2
Day 10 – secret agent hd
Day 11 – tom clancy’s rainbow six vegas 2
Day 12 – wolfenstein 3d
Day 13 – battlefield 4
Day 14 – dead space 3
And for day 15 – battlefield 3

Then this cycle starts again
For from day 16, has become day 1 again

(table of contents)

God’s Help Before Gaming

I also play left 4 dead 2, monster bash hd, prehistorik 2, rayman legends, rayman origins, jill 1, 2 and 3, and gametop games, in a schedule I won’t reveal anymore

And so in playing these games, I use god-mode which symbolizes God’s power, might and protection so that you don’t go out there getting crushed by the enemy annihilatingly because you don’t have God with you

(table of contents)

Heavenly Objects Before Hardware

The heavenly bodies in the universe and our galaxy
Like the stars, planets, moons, asteroids, comets, and galaxies
Are better to travel than to navigate the oceans of computer hardware

For heavenly objects are living witnesses of God’s presential love that cannot be comprehended
While hardware is inside and out like science of our natural world, dead and carcases
Proclaiming the battle cry “Ya dead meats!!”

The planets in our galaxy are not yet inhabited because God wants us to subdue them in due time

(table of contents)

Heavenly Objects Before Hardware

God loves us so much that He offers us the chance to enjoy the fruits of being born again, this time in the infinite planets we choose out of our own heart's desire

Truly there are multiple and many galaxies and metaverses and parallel universes out there because "nothing is impossible with God"
And so the movies DC and Marvel are true in what they depict

Our battle with satan will be over soon
As we come to the Rapture
Great Tribulation and Battle of Armageddon

(table of contents)

Heavenly Objects Before Hardware

And we will experience lasting peace
After David fought fiercely with his enemies
But was never allowed to build the temple for God because his hands were bloodied with war and God wants peace to build the temple with

So He assigned Solomon to build the temple for Him, full of beauty, complexity and wisdom

We will never understand the complexities of the universe now
For we must first offer our lives to the Lord Jesus Christ
Before attaining His wisdom, knowledge and intelligence

(table of contents)

Heavenly Objects Before Hardware

He showed me the beauty of the whole universe and all its hosts
And satan s. was envious, full of hatred and pride against Him, saying, "I don't need You God, I'm better left alone, for I will take your holy throne"

And so that's the story of satan

Which is even so much far more evil as compared to the love of God, Jesus Christ, and Holy Spirit with His people

For the time will come when we will be "All Under Heaven"
And no more tears will wipe our eyes
And no more pain, sorrow, and vice

No more evil will come our way
They will all perish in hell

(table of contents)

Heavenly Objects Before Hardware

And we will be free at last, from the clutches of sin, deception and lies

And we will forevermore travel the planets and stars and even the sun without being burned

A good poem to write and a lovely song to be heard and Amen.

(table of contents)

Saints Before Software

Saints are Heavenly beings
That love the Lord God
And pray to Him

They love the people on Earth
For they also pray for them
At death or from birth

Saints are among us
And they sacrificed a lot
Even their lives to see Jesus Christ

Saints are good and kindhearted
They help the poor and needy
They use worldly things for their benefit

And when the day comes when they die
They rise up instantly to Heaven
On eagle’s wings

(table of contents)

Saints Before Software

I love the Christian saints a lot
Because they are molded by the Lord
As our role models in life

Saints are God’s gift to us
To teach us to pray
And form friendships and bond

They pray for the poor and needy
For they have nothing
But the word of God to feed them

They pray for world peace and safety
For the healing of the nations
From war and destruction

They pray for God’s gifts and blessings
To rain on the adult and the young
To solve their problems in no time

(table of contents)

Saints Before Software

They worship, praise and thank God Almighty
Before His Heavenly Throne
Constantly

They love to play music
In God’s listening ears
And He appreciates the melodious beauty

Finally, after all wars are gone
And the Earth is no more a battlefield
The saints will be welcomed embracingly
by God’s overflowing abode of generosity

(table of contents)

Shield Before Security

Hackers infiltrate, penetrate and illegally enter your laptops, cellphones and computer
To steal information and bring viruses, malwares, worms, trojan horses, bugs, ransomware and spyware

They attack you with an irrevocable attack
That steals your cash and money in the bank
Secretly and repeatedly

They want to rule the world
With “the best hacker” title
And “the most evil information king”

They drive people insane and mad
Panicking every moment
Until life has lost its course

(table of contents)

Shield Before Security

They manipulate mind and matter
So that you are confused for which is better
To be stolen poor or left behind in agony

Hackers are from the kingdom of darkness
They have no love but hate the rich
They envy the affluent and are filled with pride and arrogance

Just like satan s.
He envied God from the beginning
He wants to steal the throne from Him

So that he will be king over all his creation
But he failed with a massive humongous tremendous failing
And he hated God so much for this

(table of contents)

Shield Before Security

He was banished from Heaven
Because of so much pride and arrogance
In that He doesn't need God in his life
and as his King

So we must be careful of hackers
For they steal-kill-destroy your sanity
Just like s. in the Bible

(table of contents)

Brotherly and Sisterly Love Before Networking

We are Brothers And Sisters In Christ
And this is a very fundamental BASIC rule
For One is our Father, the Lord Jesus Christ

We call Him Father because God the Father is in Him dwelling in love and peace might and power, and the Holy Spirit is the Bond between Them

We must always love other people
May they be friends or enemies, family or strangers, poor and needy
Because they are also members of the Church used by God to test our love for Him

(table of contents)

Brotherly and Sisterly Love Before Networking

My family, relatives and friends on Earth
are a good example of brotherly and
sisterly love
For we share unconditional love with each
other

They loved me more when I was sick
Carrying me heavy on their shoulders
And we were healed every time
sicknesses come

We pray for one another
So that our prayers will be answered by
God
In no time at all

We help each other in times of trouble
and need
We battle the spiritual warfare
That destroys the soul and spirit

(table of contents)

Brotherly and Sisterly Love Before Networking

We bring healing to our sick ill struggling bodies
When times of roughness come
And we be found on the wayside

We teach us the Word of God
By reading the Bible
And sharing our life-held beliefs and lessons

Spiritually, the enemy can’t penetrate our adjacent homes
Because of the strong triple bond that connects us
“Like love once, love twice, love three times”

And the enemy will ever flee and won’t come back again

(table of contents)

God’s Design Before Game Programming

God’s design of the whole universe, heaven and earth is flawless, perfect, a masterpieceful work of art, genius, and outstandingly excellent brilliant and splendid

He designed it after His will and according to
His intellect and glory
So that we will bow before Him
And kneel in worship

He constantly gives us free will, freedom of choice, and freedom in thoughts, words and actions because He doesn’t want to make robots out of us who cannot discern good from evil, truth from lie, just obeying its master’s and programmer’s commands blindfoldingly

(table of contents)

God’s Design Before Game Programming

He doesn’t want us to always obey His commands perfectly according to our programs because He loves to give us freedom so we can see Him more in our lives

For God is not a controlling God
He wants us to choose Him or s.
That’s why He gave us freedom

He wants us to experience all the beautiful positive good things in the universe
So that we can respond to Him with loving care and embrace

He wants us to stay out of choosing hell because He is absent there
No love no nothing at all
Just pain and suffering and torment forever and ever and ever and ever

(table of contents)

God’s Design Before Game Programming

He wants us to love Him always
For He will give us abundantly
The whole universe because of His love for us

He wants us to always defend His teachings from the enemy
And do our missions on Earth
So that in the end, we will reach the farthest points of the universe and then back again

How beautiful would this be!
For the DC and Marvel movies we are watching
Will become a whole neverending everlasting eternal reality for you and me

(table of contents)

We will also be able to travel through space and time, no more gravity
Or restriction of control
We will get to choose which planet we want to be, from the months of December to January

(table of contents)

God’s Design Before Game Programming

And we will be successful in everything
Science has made it back and regained her beauty
She will teach us all theories and experiments
From algebra to calculus to biology
General chemistry to biochemistry
Physics to electronics
Computer to game programming
Networking to security
Hardware to software
Windows to Linux to Mac
And photo editing to video editing to accounting
To solve the unsolved problems in these fields

(table of contents)

God’s Design Before Game Programming

After all our patience, perseverance, hardship, and suffering, we will finally get to know the universe, whose new and everlasting name will be ALL, which means “All Love Lives”

(table of contents)

Heavenly Art Before Photo Editing

The rising sun is the risen king
That indulge the fun of things unbecoming
And then the warrior is at hand

The ubiquitous shelter provides the storm
That mocks the birds there could be more
I love the way that this was born

The jumping tide of past aborning
The ludicrous soft palms are setting
A light in the dark will I never forget

The musinous songs that thrive to take
The fundamental wrongs you could not rate
And the art is passing by untantalizing

Many are the great grandeurs of wheat
That smolders the tares of one’s old seat
And the movement is ever right before me

(table of contents)

Heavenly Art Before Photo Editing

The tiger’s bench is ever decided
To march the storm of ever embedded
To solve the daily problems of art

For to make the sun rise again
We must read the book of belongings
And follow the rules instead

A pick in the cup that I once knew
Will see through the pink blue panther’s seal
And the throne is empty for all eternity

As the sun progresses into its fiery place
The mulatinous songs are alive again
And the racetrack of evil is ever anthropolous

The seal of the lions head everwanting
The love of all our neighbours and friends
Will dictate the voice of God once more many times

(table of contents)

Heavenly Art Before Photo Editing

For I love writing with idioms and phrasal verbs
For with idiom, “I Did It Once More”
And with phrasal verbs, “People Have Really Achieved Such Ambitious Learning Via Enlightening Real Beautiful Songs”
This form of artful renderous writing is cool to the head, brain and mind

The mind of the bodies are head untold
For the fortification will be once more
The lively stock of the story untold

(table of contents)

Heavenly Production Before Video Editing

Carry me in your arms so wide
For I need carrying I’m tired
My intentions are heavily-laden

I’m tired of sin and endless shame
Of fighting the enemy in derelictous sane
And the cock crowed twice in sentencing name

To believe in videos programming stilt
The hand of the wheelbarrow wilt
That’s full of disgrace in the mowtown hilt

The rising giraffe of the dawn
The most beautiful things in the blockade lawn
Was not presented until the culling

To fool the weak and strong at hand
Is the father’s moon in the rising sun
Then the harmonious enemy will get even

(table of contents)

Heavenly Production Before Video Editing

The cross I want to carry is this
The pain and suffering of the twisty's bliss
And the bond that connects the interstice

Only a few will know the truth
The Way, the Truth and the Life will reveal Him soon
To adjust the tides of day and night

The promises of man will only run dry
Like water in the foreboding might
That the storm in the calm will come rendering

The most important things in life are free
Like all the Linux distros and game trainers
They help us understand God's writing

(table of contents)

Heavenly Production Before Video Editing

For before the fall man was beautiful
But he wasted his chances to be with the Lord forevermore
But God in the form of Jesus Christ
Is the God who saves sinners in human form

Once again the tide was drossed
Thrassing the harassed, building the boln
For your understanding is futile dear mon

I also love watching movies that chance
The Heavenly Production in Your once old name
Coming down from Heaven unasundering

And so the story continues here
The love of man and God sincere
The Heavenly Father is a time to come

(table of contents)

Graces and Blessings Before Accounting

The accounting threshold will spark anew
The lively man will be cut in two
Like debit and credit that’s in the side

My choice of eses I can’t hold back
For singular is plural or vice versan sack
The talk of the town is unrelenting

To be or not to be is the question to ask
Like thorns in the flesh we win at last
And we go to the farthest roam of the planet

The rising sun we will not miss
And the forgiving moon we will not miss
For tomorrow the stars will be drifting away unscathed

(table of contents)

Graces and Blessings Before Accounting

The promise of God for me and you
Is to battle the fight against the antichrist
That will come hunting the Jews and Christians
And those that don't have the mark of the beast

For mark of the beast means, "Man Aspires Real Knowledge, Oftentimes Following, The Highly Elegant, Biological Encoding And Satellite Tracking"

For if you take the mark of the beast
In your right hand or in your forehead
Then you will be doomed forever and ever in hell

So fight the good fight, finish the race, and keep the faith before the Rapture and in the Great Tribulation

(table of contents)

Graces and Blessings Before Accounting

For the Lord Jesus Christ is coming fast
On the clouds of love and kingdom come at last
And He will reward us with so great a crown and infinitely more

Always pray to the Lord to guide you
If you fail to make it in the Rapture
And be left behind in the Great Tribulation

Always pray to God that you will not take the mark of the beast
To help you get to a safer higher place
Because the antichrist will come after you chasing

(table of contents)

Graces and Blessings Before Accounting

For in the end, if you succeed
And didn't take the mark of the beast but died in the Lord Jesus Christ's saving blood on the cross
Then you will become tribulation saints and still make it to Heaven

Blessed be the Lord God Almighty
The Lord Jesus Christ our Saviour and Redeemer
And God the Holy Spirit our ever Friend and Helper

Forever and evermore and for all eternity

AMEN

(table of contents)

Nothing is impossible with God. The author of this book, after being saved by accepting the Lord Jesus Christ as his personal God and Saviour, continued to obey all of His commandments. This outpouring of his love for the Lord resulted in the writing of this book made possible only through the Lord’s loving guidance and revelations. The best way to read this book is by starting from Poem 1 then through to Poem 144. Also, please feel free to use this pdf book in any way you want or need, including printing, translating to other languages other than English, sharing and distributing to other people, may he or she be a Christian or not. This the Lord Jesus Christ told me so. Happy reading and God Bless!!
